The most important astronomical event of the year—a total eclipse of the sun—will be visible in whole or part throughout the greater part of the United States today.

ONE-EIGHTH OF QUOTA RAISED

Japanese Relief Fund of Lowell Chapter, American Red Cross, Has Fair Start

First List of Donors Shows City is Responding to Urgent Call

Minimum of \$8000 Wanted Here and Large Volume of Small Subscriptions Asked

Up to this noon Lowell men and women had pledged \$12,854 to the National Red Cross fund for Japanese relief. This city's quota is \$8,000 and local organization officers said today the drive will be continued until the full amount is secured.

Since its splendid war time work the Red Cross has come before the public only occasionally for funds and what is more, it is felt the present call is of great urgency and justification. A great and awful calamity has befallen the country of Japan. Thousands have perished and other thousands are homeless and without food. This nation, through the agency of the Red Cross, is asked to give of its vast material resources to aid in the task of bringing relief into the country which now stands desolate. Lowell must play her part and give her share and the local Red Cross organization has undertaken the job of raising the assigned quota of \$8,000.

To date the subscriptions and

Ambassador Asks That Million Dollars of Red Cross Be Made Available at Once

Medical Supplies and Food Urgently Needed to Alleviate Suffering in Japan

Casualties in Tokio and Yokohama Set at 50,000 Dead, 100,000 Injured

WASHINGTON, Sept. 10.—Reporting that an epidemic of fever had broken out at Tokyo, Ambassador Woods in a cable to the state department today said it was imperative that one million dollars of American Red Cross be placed immediately at the disposal of its relief committee in Japan for the quick purchase of medical supplies and food from nearby markets.

Ambassador Woods also reported the appointment of the Red Cross relief committee in his message, which read as follows:

"In accordance with instructions, have appointed American Red Cross

GIANT PITCHER FINED AND SUSPENDED

NEW YORK, Sept. 10.—John Watson, pitcher of the New York Giants, has been fined \$500 and suspended for the remainder of the season for violation of training rules, according to word received from Boston, where the champions arrived today to begin a series with the Braves.

McGraw's drastic punishment, according to the advices, was meted out when the pitcher reported in unfit condition for the trip to Boston. He had been warned several times previously for infraction of rules. It was said:

Watson came to the Giants in mid-season from Boston on a deal in which he and Catcher Hank Gowdy were traded for Pitcher Jess Barnes and Catcher Earl Smith of the champions.

UNFILLED ORDERS OF STEEL
NEW YORK, Sept. 10.—Unfilled orders of the United States Steel corporation on Aug. 31, made public today, totaled 5,411,663, a decrease of 496,100 tons as compared with figures for the preceding month.

Murder Search Extends to Upton's Pond Near Junction of Tyngsboro and Dunstable Roads

The murder search today extended to Upton's pond in Tyngsboro, a small body of water to the left of the state highway at the junction of the Tyngsboro and Dunstable roads. The deep-sea diver secured by the district attorney's office to work in the Merrimack river will search the bottom of the pond to ribs head of the murdered woman, beginning tomorrow.

This extension of the search was ordered today by District Attorney Arthur K. Reading after communication with Chief Pelletier of the Tyngsboro police. The diver's work in the waters of the river practically is completed.

The two suitcases in which parts of the woman's body were found have been sent to a large suitcase manufacturer for the purpose of measurement and further examination. The police are positive the suitcases are of the automobile baggage type and are made particularly for some type of car. It is for the purpose of ascertaining what car they were made for that they were sent to a large manufacturer today.

If, after measurements, it is ascertained what make of car is involved, an exhaustive search will be made of all garages and repair stations in Boston and vicinity in an effort to locate the machine wanted. The police feel this is the car that plunger through

the guard rail of the Tyngsboro bridge the night the suitcases were believed to be tossed into the stream.

John H. Robinson, a veteran diver, after working on the case for several days, has told the district attorney he believes the heavier of the two suitcases found was thrown into the water from a point on the shore and not from the bridge. It was too heavy to be carried downstream to the point where it was found from the bridge location, he asserts.

The dismembered parts of the body were taken away from Lowell today on order of District Attorney Arthur K. Reading. They were taken to Boston this noon by Undertakers J. E. O'Donnell & Sons, where an autopsy will be performed by Dr. McGrath, medical examiner for Suffolk county and considered one of the county's leading criminologists.

On request of the district attorney's office Dr. McGrath will examine the body in an attempt to shed some light upon the identity of the woman and her violent death, but without the head, which still is missing, the police admit identification is almost impossible.

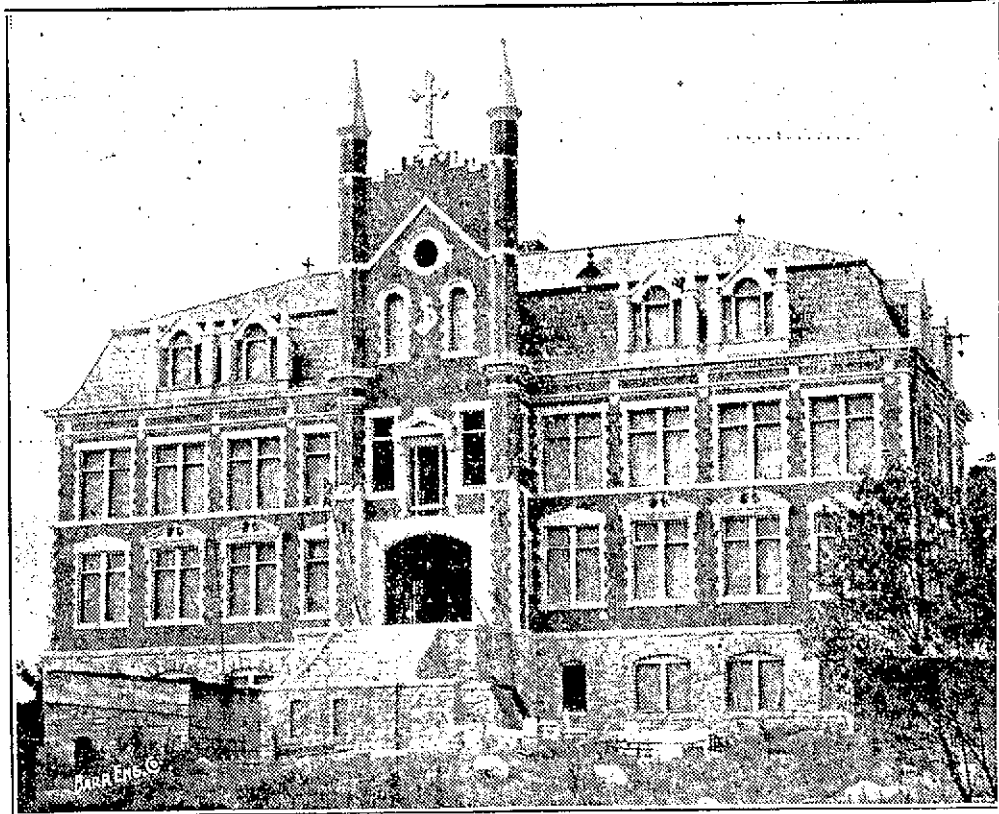

With the passing of the days Dr. McGrath will report.

is nine now since the first suitcase was pulled out of the river—the murder is rapidly slipping into the category of unsolved crimes, although the police have not abandoned any effort to solve the mystery.

The search is almost a race against time now, however, for unless the head is securely wrapped within cloth and thus protected, decomposition is far advanced and the chances of identification should it be found immediately, grow less and less. This district attorney still sticks to his original belief that all parts of the body were disposed of in the same manner, by throwing them into water and inasmuch as the Merrimack already has given up two suitcases, it is felt the other parts of the body are in the same stream, probably hidden in a similar type of container.

The autopsy to be conducted by Medical Examiner McGrath will be held at the Harvard medical school, Dr. Marshall J. Allen, medical examiner for Middlesex county, will assist him. The most minute measurements will be made. The findings will be made public except by the district attorney, to whom Dr. McGrath will report.

MARIST BROS. NEW JUNIORATE IN TYNGSBORO

The new juniorate of the Marist Brothers, situated on a lofty knoll of the Tyngs estate in Tyngsboro overlooking the Merrimack river, is rapidly nearing completion and it is believed that within four or five months this beautiful building will be ready for occupancy.

Built with red brick, with granite facings, and decorated with several towers topped with gilt crosses, this building stands out prominently on an estate that was a central figure and landmark in the early Colonial days.

For years the only juniorate of the Marist Brothers in the northeastern part of the country has been located at Poughkeepsie, N. Y., and the building there has been inadequate to meet the growing demands of the order. The new juniorate here will not do away with the Poughkeepsie school, but will bring to Lowell all the boys in eastern New England who desire to study

for a religious life in the Marist order. Situated at a distance of only six miles from the center of Lowell and but 22 miles from Boston and served by both train and trolley, the location is ideal for the building's purpose.

The juniorate comprises two buildings, one to be used for school room and dormitory purposes and the other for kitchen, refectory and chapel. The main building faces on the Princeton boulevard. The outside of this building is practically completed but the inside is still in the early stages of construction. This building is three stories in height. The first and second floors will be used for school rooms, laboratory and other school necessities and on the top floor will be the dormitories. The latter will accommodate about 100 boys.

The second building is situated directly in back of the main building. The basement section of this building is

complete. In the basement is located the bell and power apparatus for the whole plant. The first floor of this building will accommodate the kitchen, pantry and refectory while on the second floor will be located the chapel.

Both buildings are absolutely fireproof throughout. The walls are of brick outside and plaster over a fireproof base and the floors are of a fireproof composition. The boiler room is located in a fireproof vault. The floor of the vault is built of cement, the walls of brick and stone and the ceiling of cement. The electrical wiring throughout will be modern so that there will be no danger of short circuits or worn insulation causing fire.

The cost of the building is estimated at about \$100,000, although it may be as high as \$125,000.

The reason for the low cost of the building was set forth by Brother

PROBE TELEPHONE SERVICE IN R. I.

PROVIDENCE, R. I., Sept. 10.—Gov. William S. Flynn today requested that the public utilities commission inquire into the quality of service now being furnished by the New England Telephone & Telegraph Co. and to report that an immediate improvement in the "inferior service" is impossible, and demand a temporary modification of rates.

SALVATION ARMY DRIVE

NEW YORK, Sept. 10.—Enclosed Booth today opened the Salvation Army's relief drive, temporary relief at \$10,000, by notifying the city's 340 officers throughout the city that each would be expected to raise \$5 from his salary. A fund of \$10,000 would be raised from this source alone, she estimated.

INSURANCE COMPANY WOULD HALT PAYMENTS

A hearing in the case of Louis Gossi of 41 George street, an employee of Contractor F. E. Meloy, against the Standard Accident Insurance Co., brought under the workmen's compensation law, was held at city hall today. David T. Pickens of the Industrial Accident board presided.

Gossi was injured while at work on Nov. 2, 1920, and shortly afterwards was allowed compensation of \$16 a week. The insurance company has petitioned the Industrial Accident board for permission to cease the compensation and hence the hearing. J. H. Goss represented Gossi and the matter was taken under advisement.

CONFIDENTIAL HILLS

BATTLICK, R. I., Sept. 10.—Local banks report that a number of stop-payment orders have been received from the counterfeiter Andrew Jackson \$10 bill, bearing the serial number A5587540 Saturday night.

SCHOOLS OF CITY OPEN AGAIN WITH LARGEST ENROLMENT IN LOWELL'S HISTORY

Thousands of Eager Children, the Flower of the City's Youth, Answer Call to Halls of Learning—High School Registration Well Over 2300—Normal School Will Resume Sessions Wednesday—Parochial School Children Attend Mass Before Session—City Places Portable Schools in Service to Care for Great Influx

There were whisperings of approaching autumn and retrospections of departing summer in the atmosphere this morning as thousands of public and parochial school children once again abandoned vacation thoughts and turned their attention to the educational subjects they are to pursue until another June is celebrated on the records of school departments. Although a definite estimate of the total

registration in the grammar schools of the city could not be obtained this morning, owing to the confusion attendant upon the opening day, an approximate estimate places the number at well over 2000—the largest total enrollment in the history of the city. Naturally, those schools in which the junior high school system is in vogue present higher registration than the regular elementary grades. The

Populations in Occupied Areas of Germany Ordered to Stop Passive Resistance

Direct Negotiations Between France and Germany Said to Be Imminent

LONDON, Sept. 10.—(By the Associated Press).—The populations in the occupied areas of Germany have been ordered to discontinue the passive resistance to the French and Belgian authorities according to the Central News correspondent in Berlin.

"I learn," the correspondent telegraphs, "that the German capitalists have decided to send a representative to Paris with the object of ascertaining to what extent France is prepared to make concessions to Germany."

"Direct negotiations between the two governments are believed in political circles here (in Berlin) to be imminent."

INDUSTRIAL WAGES HAVE LED INCREASE LOCAL PASTOR TENDERS HIS RESIGNATION

According to the current number of "The Guaranty Survey," published by the Guaranty Trust company of New York, the advance in industrial wages since February has been greater than in any like period since 1920.

"This rise," the survey states, "is now being retarded. Prices have been falling since April, with a tendency toward stabilization in recent weeks. Expanding labor costs and declining prices portend smaller profits. The lag in the advance in the cost of living means that the money wages of industrial workers command an increasing quantity of commodities. With practically full employment, these workers are in an increasingly favorable position, while their employers find it more and more difficult to earn a profit."

Rev. Arthur G. Lyon, pastor of Pawtucket Congregational church for the past seven years, on yesterday made known his desire to resign his duties, effective Oct. 15. Dr. Lyon has been in the ministry for twenty-five years and plans to go to Florida for his health.

He and Mrs. Lyon spent several months in Florida last year and were benefited thereby. In his letter of resignation, Dr. Lyon refers feelingly to his reluctance to "close this most happy pastorate of all my ministry."

OBSERVANCE OF JEWISH NEW YEAR

With the setting of tonight's sun the Jewish Year 5684 will be ushered in. Observance will continue on Tuesday, and, in the orthodox congregations, Wednesday, New Year, which falls on the first day of the seventh month, Tishri, in the Jewish calendar is not known scripturally by that name. Rather it is the "Day of the Memorial of the Blowing of the Trumpet." The Jewish New Year is the commencement of a long line of holy days.

It is to be noted that this is the day of the new moon of the seventh month. The new moon was observed as a holy season by the Jews of old, the seventh month was particularly a holy month, as the seventh day was the holy day of the week, hence the new moon of the seventh month was invested with a significance of far greater import than the other new moon days of the year.

As in all holy seasons, no work, no painful occupation, is to be followed. The feature of the services is the blowing of the "Shofar," the ram's horn trumpet, which is to arouse the Jewish people to their duties and remind them of their failures.

The days intervening between New Year's day and the day of atonement are called the Ten Days of Penitence, culminating with the Kol Nidre services on the eve of the day of atonement.

RESUMES ATTACKS ON COOLIDGE'S SECRETARY

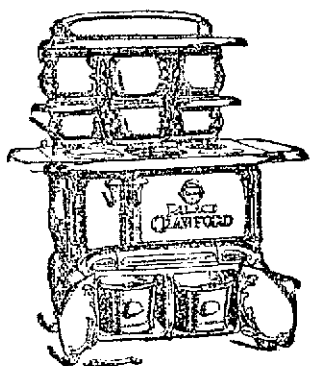

WASHINGTON, Sept. 10.—The democratic national committee resumed today an attack on C. Bascom Slemp, secretary to President Coolidge, by giving out the text of three letters described as having emanated from the office of Mr. Slemp while he was a member of the house from Virginia.

The letters were signed by Mr. Slemp's secretary and concerned federal appointments, Representative Harrison, democrat, of Virginia, during the last session of congress, attacked Mr. Slemp's methods of dispensing patronage.

LEAGUE ELECTS DR. PERROA OF BRAZIL

GENEVA, Sept. 10.—(By the Associated Press.)—Dr. Edilio Perroa of Brazil was elected to the permanent court of international justice at The Hague by the assembly and council of the League of Nations, voting concurrently this morning. He succeeds the late Ruy Barbosa, also of Brazil.

Dutch chlor carbon dioxide, instead of air, into their butter to keep it from deteriorating.

One Year to Pay FOR A Crawford Range

At the Cash Price. (No Interest or Other Charges)

So if you have thought of buying another range because you could get easy terms or so-called club plan, you need not deprive yourself the pleasure of owning Crawford on that account, for we will give you one year's time to pay for any Crawford Range, whether it cost \$61.00 for an 8-18 Fairy or \$285.00 for a Gray Enamelled Combination Coal and Gas Range. But the best part of the offer is that you can buy it on those terms at the regular listed cash price. This, we believe, is the only store that does not charge 10% more on the purchase of a range on credit over the cash price. If you doubt that, ask for the discount for cash. It's 10% less for cash and 10% more for credit, or \$5.00 to \$25.00 more on a Range. You save that much by buying a Crawford Range.

Those who prefer to pay cash cannot find fault as they are getting the bottom cash price, and those buying on credit can rejoice at the saving. On our part, we expect to make as much on our total range business by selling many more ranges to people who want the best range and are not buying terms or discount.

THOUSANDS SEE RUINS
OF SPRINGFIELD BRIDGE

SPRINGFIELD, Sept. 10.—Working through the night Saturday and all day yesterday, big gangs of public service employees partially restored telephone and electric service to West Springfield, which was cut off when the cables connected with the North End bridge snapped as the structure collapsed during the fire Saturday.

Electricity was furnished so that homes on the west side were lighted last night, but not enough to operate the street lights, and the thoroughfares of the town were in darkness. By today, it is said, enough wires will be laid to handle all the lights. All industrial plants will be supplied with power. The telephone lines, about 800, which were put out of commission by the fire, will not be in working order before Wednesday.

The ruins of the bridge, still flaming and smoldering in spots, were viewed by thousands of sightseers from all sections of Western Massachusetts yesterday. Plans are under way for the replacement of the bridge.

Traffic is being handled across the new Memorial bridge and big gangs of workers yesterday were laying trolley tracks through Vermont street, back up with traffic already on the bridge so that traffic between this city and the other cities and towns in Western Massachusetts could be resumed. It will be ready Wednesday.

CENTRALVILLE SOCIAL
CLUB HOLDS OUTING

About 800 men participated in the annual outing of the Centralville Social club, which held yesterday at Attitash in New Hampshire. One of the most successful of its kind ever conducted by the organization and the committee in charge was warmly commended for the success achieved.

At 9 o'clock in the forenoon motor trucks and electric cars were pressed into service and the happy excursionists were conveyed from the club rooms in West Sixth street to the outing grounds, where a day of pleasure was spent. The weather was ideal for such an event, and all present made the day a most enjoyable one. A varied list of sports including the traditional ball game as well as a boxing match between Omer Holbert and Amodeo Perron was conducted and suitable prizes were awarded the winners. The committee in charge included: Ferdinand Lussier, chairman; George Dedaudin, treasurer; George J. Pate, jr., secretary; Henry Nadeau; James Boudier; Andre Thibault; Joseph Gahin; Wilfred Blanchard; Lucien Lussier.

INQUEST FOR MONEY

BIRMINGHAM, Eng., Sept. 10.—Twenty pounds in gold, found by a boy, was the subject for an inquest yesterday. The jury learned the boy gave it to a police immediately and did not try to hide it. As a result he may get a grant of 16 pounds by the government for his honesty.

AUTO STALLED ON TRACKS
—ONE KILLED

BRUNSWICK, Me., Sept. 10.—Mrs. Grace Wallace, wife of Roy Wallace of Bath, Me., was killed and four companions were injured, two possibly fatally, in an automobile accident at Hillside Crossing, scene of many automobile accidents, four miles west of Brunswick, shortly after 7 o'clock last night.

Arthur Williams of Bath, the driver, was injured about the legs and his wife was injured about the back. Mrs. Jones and Miss Dina Ellis suffered injuries to the back, while Miss Louise Morse escaped injury. All the occupants of the machine live in Bath and they were on their way to Bath from Portland. All were taken to a Portland hospital, where Mr. and Mrs. Williams' names were placed on the dangerous list.

The automobile signal at the crossing was working, showing that a train was coming, on its way to Portland. Three machines sped across the crossing before the train arrived, but the machine operated by Williams stalled on the tracks.

The train struck the car in the center and tossed it about 30 feet to the highway. Mrs. Wallace was pinned under the machine and killed.

CATHOLIC NEWS

Rev. Dennis A. Sullivan, O.M.I., former assistant at the Immaculate Conception church, formally assumed the pastorate of the Sacred Heart church yesterday as successor to Rev. John P. Flynn, O.M.I., who goes to the Tuftsbury novitiate. Rev. Fr. Sullivan addressed the congregation at all the masses yesterday. The Junior Holy Name society of the Sacred Heart church met yesterday afternoon for its regular monthly session.

At St. Patrick's church yesterday members of the Holy Name society received communion in a body. It was announced at all the masses that the Academy of Notre Dame will re-open next Wednesday. All the sodalities of the church will receive communion at the 5:30 o'clock mass next Sunday.

The Sacred Ladies' sodality of St. Peter's church will hold its regular meeting next Wednesday evening. The Society for the Propagation of the Faith will meet Thursday evening. St. Peter's Cudeis, recently returned from camp, will receive communion at the 8:30 o'clock mass next Sunday.

Members of St. Michael's Holy Name society received communion at the 8 o'clock mass yesterday morning. The first meeting of the fall season was held in the basement of the church last evening, with James Duddy presiding. Rev. James F. Lynch, spiritual director, in a talk to the members, advocated the appointment of an entertainment committee to develop plans for the coming season. His suggestion was adopted and the officers of the society appointed to devise ways and means of furnishing entertainment.

The Immaculate Conception sodality will meet tomorrow evening at 7:30 o'clock.

English girls are tattooing their names on their wrists.

Full Details of Case
Given by Mrs. Cook

"Since taking Tanlac I eat anything I want, even candy, and nothing hurts me," said Mrs. George H. Cook, residing at 280 Earle st., New Bedford, Mass. "Two years ago I had a severe spell of illness, and from then until I got Tanlac I was badly run down, extremely nervous and in an awful fix due to indigestion. My stomach just seemed to give out completely, every minute I was in pain or distress from sourness and gas, and this kept up even after I went on a strict diet. I couldn't sleep and mornings I felt as if I had no energy at all."

"Soon after I got Tanlac I began to sleep, and that indigestion pain and distress disappeared. Now I'm as well and strong as ever and I always keep some Tanlac in the house."

"Tanlac is for sale by all good druggists. Accept no substitutes. Over 37 million bottles sold."

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.—Adv.

Anal there will be the movie drama classic, "The Man Next Door."

THE STRAND

The triple feature program showing at the Strand for the first part of this week is one of the best ever seen on its silent screen. For the first attraction the program has the classic feature, "The Broken Wing." For the second there is "The Lonely Road," with Katherine MacDonald in the leading role, and the third there is a funny Gump comedy entitled, "Uncle Ben's Gift." Don't fail to take it in.

CROWN THEATRE

Theodore Roberts made a great success to art when he made up for his featured role in "Grumpy." William de Mille's Paramount production, which comes to the Crown theatre today and Tuesday. The sacrifice consisted in shaving off most of his eyebrows.

In the title role of "Grumpy," Mr. Roberts is character of eighty-five years, irascible, but lovable. In order to make up for the role, he shaved his famous moustache and put aside his usually well known character; then, to make the character still more realistic, he shaved off about half of each eyebrow. The result is an entirely new character in the screen, though not so new that audiences will fail to recognize the lovable old player. Mr. Roberts has always been, and still is.

OPERA HOUSE

Today marks the opening of the great stirring drama of love, experience and burrowing adventure, entitled "The Man Who Came Back," at the Opera House. Played by the popular Al Lutteringer, which played at the Opera House, Corinne and Mr. Victor Browne in the two most prominent roles this play is bound to repeat its success in Lowell and New York. It is a wonderful play for months at a time and as the presentation here in Lowell is for one week only one may rest assured that capacity audiences will be in evidence at the Opera House this week. Seats are selling now.

MERRIMACK SQUARE THEATRE

"The Purple Highway," a Paramount production of John Golden's successful stage production, "Dear Me," opened a four days' engagement at the Merrimack Square theatre yesterday and judging from the reception it received on its initial presentations it is due for an uncommonly successful run here.

After an absence of two years from the screen, Miss Mary, already famous, not in her wonted role of a comedienne, but as a dramatic actress of the highest ability. "The Purple Highway" tells a story that all will appreciate and enjoy.

THE RIALTO THEATRE

Another big William Fox special production will be given its local premiere at the Rialto theatre tonight, when "The Town That Forgot God," a melodramatic story of small town life, will open a week's engagement. Directed by Harry Millarde, who staged the famous drama of mother love, "Over the Hill," "The Town That Forgot God" promises an entertainment of unusual merit and heralds a cast of screen artists worthy of special mention. What probably is the most sensational storm and flood scene ever shown upon the screen forms the climax of this photodrama, according to advance reports, a whole city being demolished by the boiling torrent and terrific wind. While the storm and flood scenes were being photographed a number of cameramen, stationed at various points around the

area to be flooded, narrowly escaped drowning when the platforms upon which they were standing were washed away by the rushing current. The photographs, their cameras and all were caught in the torrent, it is announced. A notable cast of screen artists porting

the various different roles in this sensational story of rural life, including Jane Thomas, who has played feature roles in a number of William Fox Special productions. "Beauty" Greener, said to be the world's greatest boy actor, has the leading role. This youngster started his career with David Warfield in his recreation of "The Return of Peter Grimm." Warren Kreech, Harry Belton, Grace Barton, Francis Healy, Edwin Denison, James Levine and others of equal calibre. "The Town That Forgot God" is the picture that created such a furor when shown at the Tremont Temple, Boston, recently at \$2.00 prices. This is positively the first time that this picture has ever been in Lowell. The prices at the Rialto for this super production are ridiculously small. In the afternoon all seats will be 10c while in the evening the entire house will be 20c plus tax which totals it 22c.

STRANGE FISH

MILFORD, Eng., Sept. 10.—A strange fish measuring 4½ feet around the head and 12 feet long has been caught by a trawler off the northwest coast of Ireland. The mouth is bottle-shaped and toothless, but the body resembles a shark's.

New Zealand has less than one-half of one per cent alien population.

Berton Braley's Daily Poem

SOAP

I sing of Soap! Though I might sing
Of other matters broad in scope,
In fact of almost anything,
I sing of Soap!

Soap, which removes the grit and grime
That comes from sweat and toil and stress;
Soap—it's a lather which we climb
To cleanliness.

The simple savage knows it not,
But sits within his jungle patch,
Forever finding some new spot
That he must scratch.

But slip some soap to him and show
Its proper use; you'll be surprised
How rapidly he'll start to grow
More civilized!

Disease and dirt stalk hand in hand,
And with them it is hard to cope,
But in a real progressive land
There's always Soap!

And this thought bubbles in my brain,
Like soda water in a cup,
The nation rich in soap will clean
The others up!

Perhaps when tried out in the wash
Mine may prove unvarnished dope,
But, till that moment comes, h'gosh,
I sing of Soap!

(Copyright, 1923, The Lowell Sun)

Another great story by the author of "The Black Gang" will start in the Boston Globe on Friday, September 14th.

CINCINNATI REDS MAKE SLIGHT GAIN ON NEW YORK GIANTS

Runners-up Win Over Pittsburgh, While Brooklyn Hands Beating to World's Champions—Yankees Win Double-Header From Red Sox—Ruth Cracks Out 34th Home Run

Browns in Chicago 4 to 2, in a hard pitched battle. Van Gilder held the White Sox on six hits, against seven taken by St. Louis off Blankenship, but superior field work of the Chicago team accounted for the victory.

The Tigers lost to the Indians in Cleveland 5 to 3. The first four innings were featureless, Detroit taking one each in the fifth, sixth and seventh. Cleveland did a slight amount of lurching and collected two in the sixth, one in the seventh and two in the eighth again.

The Athletics trimmed the Senators in Washington 5 to 3. The Philadelphia acquired 14 hits to six by the visitors.

The Cardinals, with Iyer in the box, shut out the Cubs in St. Louis, 4 to 0. Iyer allowed eight hits to nine by Kaufmann, but kept them

great fault.

Billy Evans
says

Unquestionably the lively hall has been the greatest factor in the era

scattered. He also had better support.

**ROMEO ROACH COMES
WITH FINE RECORD**

Romeo Roache, the French-American featherweight, who will make his initial appearance in Lowell on next Thursday night when he stacks up against Newport Johnny Brown in the main event of the Monday club card, will come to town with a formidable record.

Roache is of the fighting type, much like Brown, and hence fans look for a hurricane battle.

A glance at Roache's record is enough to satisfy the most critical

of slugging that is now baseball's chief feature. Incidentally the fact that umpires have been in the habit of throwing a ball out of play on the slightest provocation has played a prominent part. With the pitcher compelled to deliver a new ball practically all the time, and the bats-

man realizing the advantage this gives him, slugging has become the outstanding feature of baseball.

Recently I read a statement where the cost of balls to a club for a season play had increased practically tenfold in the last 20 years. One club owner made the statement that his baseball bills 20 years ago

amounted to \$300, that last season it cost him \$600 to keep the athletes supplied with new balls and that this year the cost would probably run to \$3000. Incidentally the club owner made a wise crack when he said not nearly so many balls would be thrown out if the expense for same came out of the salary of the players and the umpires.

Offering concrete stands renders a ball unfit for play. The desire to be constantly hitting at a perfect ball, however, has caused more balls to be thrown out than any other reason. Let a batter strike out, or imagine a certain ball at

the knee of Nelsius. Cullen has won every one of his professional fights since a knock-out and is the lightest champ of New Hampshire.

LOST TWO GAMES OVER WEEK END

The Silesia mill team of North Chelmsford dropped two games over the week-end on their own grounds. Were taking measure Saturday by a score of 4 to 2 and the Lowell 13.3 A.M. losing the trick, resuming afternoon by a 5-2 count. Brilliant pitching by Zink may be attributed as the chief cause of the defeat. The Lowell play proved disastrous in the Sabbath encounter. Silesia out-hit Lowell but

the umpire, immediately ask the umpire to investigate the condition of the ball. In a majority of the cases the umpire has seen the angle of the batsman. Not	Freeman, rf 4	Williams, lb 3	Watson, cf 4	1	0	0	0	0	1	0	0

Is it more difficult to hit a stationary golf ball than a baseball whizzed through the air with terrific speed? The little golf ball as it	Lowell 0 0 5 0 0 0 0 0—5 Silesia 0 0 0 0 0 0 0 2 0—2	Two base hit: Crowe. Three base hit: Cawley. Stolen base: Ware. Sac-
--	---	--

sits silently on the tee, is often a very elusive critter when one first starts the game. However, George Sisler is convinced that it is much easier to hit a golf ball than a baseball. During the summer Sisler, who has been unable to play baseball because of eye trouble, has indulged in a lot of golf. He plays an excellent game and has long since become a "pro" on the links. Recently, in talking with him he remarked, "I certainly can't whale the old golf ball, but somehow, the eyes don't take so kindly to a baseball."

Sisler, by the way, has given up any idea of playing this year. At the opening of the season he was certain he would get into action during the last two months of the race. Now he has decided to forsake baseball.

TO REGULATE COAL PRICES

Gov. Pinchot Suggests Operators Should Bear Brunt of Wage Increases

Federal Mediator Makes Recommendations in Letter to Pres. Coolidge

HARRISBURG, Pa., Sept. 10.—(By the Associated Press)—Governor Pinchot of Pennsylvania yesterday made public a letter to President Coolidge suggesting that, with an anthracite coal supply assured for the coming winter as a result of the agreement reached by representatives of operators and miners here Saturday night, steps be taken to safeguard the consumer against increased prices.

The agreement reached Saturday night covered the terms of a proposed new two year contract between operators and union miners of the hard coal field, based upon the four points of the settlement plan submitted by Gov. Pinchot to the operators' policy committee and miners' union officials here last week. These points included a 10 per cent increase in wages, inauguration of the eight hour day, recognition of the union without the "check off" and recognition of the principles of collective bargaining.

The agreement also covered certain other lesser points at issue.

In submitting his settlement plan last week the governor told operators and miners' representatives the 10 per cent increase, according to figures available, would add 60 cents a ton to the cost of domestic sizes of anthracite at the mines. Of this, he said, not less than 10 cents can be and ought to be absorbed by the operators without any increase in price.

The remaining 50 cents, the governor declared, "should not in the end be taken from the consumer," and the whole of it, he asserted, could "easily and properly" be taken out of the cost of transportation and distribution.

In his letter to President Coolidge, the governor repeated his earlier statement that 10 cents should be taken up by all the operators and added that many "would absorb" the whole of the 60 cent increase and still make abundant profits.

"In fairness the remainder of the 60 cents should never reach the consumer," he added. "It is certain, however, that this amount and probably much more, will be exacted from consumers unless public action is taken to prevent it. Accordingly, those who were good enough to indicate that suggestions from me concerning anthracite would not be unwelcome, I am writing to suggest that real advantage to the public would result if upon the interstate Commerce commission would take up and consider anew the rates charged for the transportation and distribution of anthracite coal, with a view to reducing them if justification for such reduction should be found."

The governor also told Mr. Coolidge that mining operations are likely to be resumed before Sept. 20, an assurance based on the rapid action taken here last night after the terms of the new contract were agreed upon. The union scale committee met immediately after the conference, had completed their session at 9 o'clock and approved the agreement. The committee fixed Sept. 17 as the date for a tri-district convention of members of the United States Mine Workers in the anthracite field at which the new agreement will be submitted for ratification. The meeting will be held in Scranton. If it is ratified, as union leaders expressed the belief it will be, the work suspension order which went into effect Sept. 1 will be rescinded immediately. As Sept. 15 is primarily election day in Pennsylvania the men will not get back into the mines before Sept. 15.

True Beauty

Is impossible to those who leave film on teeth

Prettier teeth form one great beauty item. And millions now enjoy them. Every day they are combating the dingy coats of film.

This offers you a ten-day test of the method they employ. It is used by dainty people of some 50 nations now. And you will always use it when you once see what it does.

That cloudy film

The clouds on teeth are due to film—that viscous film you feel. Much of it clings and stays on teeth under old-way brushing. Soon that film discolors, then forms dingy coats which hide the luster of the teeth.

Film also causes most tooth troubles. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. Hardly one in fifty, in the old days, escaped these film-caused troubles.

New-day methods

Dental science has now found two ways to fight that film. One acts to disintegrate the film at all stages of formation. The other removes it without harmful scouring. Those methods were proved effective by many careful tests. Then a new-type tooth paste was

created to apply them daily. The name is Pepsodent.

Now that tooth paste is in world-wide use, largely by dental advice. Wherever you go you see the benefits it brings.

Natural ways

Pepsodent acts in natural, gentle ways. Its effects do not come from harsh grit.

Pepsodent multiplies the alkalinity of the saliva, also its starch digestant. One is to neutralize mouth acids, the other to digest starch deposits. These great natural tooth-protecting agents gain manifold power from each other.

Pepsodent will bring you a new conception of what clean teeth mean. Send for this 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth become whiter as the cloudy coats disappear.

Do this for your own sake and your family's sake. Cut out the coupon now.

Protect the Enamel

Pepsodent disintegrates the film, then removes it with an agent far softer than enamel. Never use a film combatant which contains harsh grit.

Skin troubles are a burden to youth

Young people are often the victims of unsightly, embarrassing skin troubles which prevent the full enjoyment of youth. To such sufferers Resinol Soap and Ointment bring relief and comfort.

Resinol Soap thoroughly, but gently cleanses the skin to the depths of each tiny pore, and prepares it for the Resinol Ointment

which soothes and heals the irritated, inflamed spots. Thousands of satisfied users of the Resinol treatment testify that it has changed a muddy, blotchy complexion to one that is clear, smooth and glowing with health.

Skins once restored to health can usually be kept in that condition by the regular use of Resinol Soap.

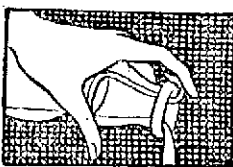

"The great satisfier and skin beautifier"

HOOD'S Perfectly Pasteurized MILK

has come to town!

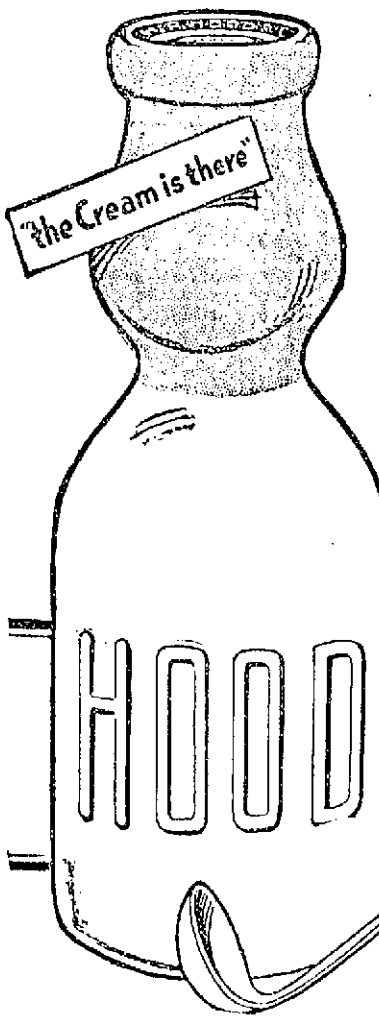

Pouring off entire cream content by inserting special ladle and tipping bottle.

A ladleful of rich cream for your morning cup of coffee.

"The distinctive bottle with the cream-top"

For over three-quarters of a century, the name "Hood" in connection with milk has been a guide to particular people—and their assurance that it is a pure, rich milk that goes beyond the standards of the law.

The entire supply of Hood's Milk is under the watchful eye of laboratory experts. Every quart is perfectly pasteurized at 142.5 degrees Fahrenheit for thirty minutes—then instantly cooled to 40 degrees. This is done to make the milk supremely safe for your children and yourself.

Moreover, the latest addition to our service is the distinctive bottle with the cream-top. The cream, rising to the top of the bottle, fills the "cream-jar", so that by using the special cream ladle which is given free to every user of Hood's Milk, the housewife can remove a ladleful for a cup of coffee or the entire cream content.

Countless thousands of homes throughout New England enjoy Hood's Milk every day. You, too, can now have this better milk—superior to every requirement of the law—and at no higher cost.

Phone or write—telling us when you want Hood's unfailing service to begin.

Jack Daw's Adventures. Chapter 23

"Hurrah!" shouted the little adventurer. "We are saved." "Don't be so sure," replied Kettles. "We can see them because they have a big boat, but how can they see us?" "Well, then," replied Jack, "let's build a bonfire so they can see our smoke." "Great idea," replied Kettles.

Jack immediately piled sticks into a heap and then he discovered that they had no matches. "We don't need matches," laughed Kettles. And he showed Jack how to make a spark and start a fire by rubbing two stones together. Hence, the great bonfire was soon burning brightly.

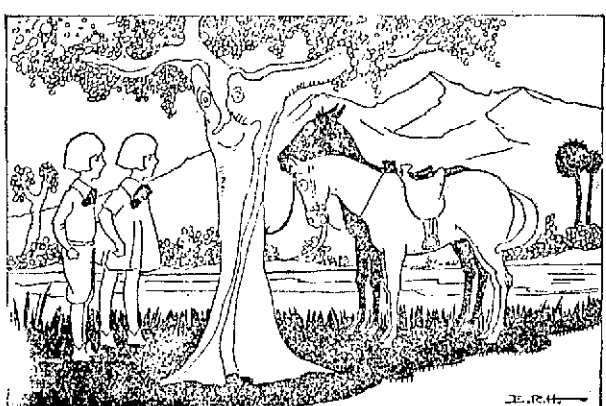

Now Jack turned his attention to the boat again. It had come closer and soon announced that it saw the smoke streak by firing off a big gun. "They're going to come after us," said Kettles. "Well," replied Jack, "how can that great boat land on this shallow shore?" (Continued.)

ADVENTURES OF THE TWINS

by Olive Roberts Barton

TIED TO ONE OF THE TREES WERE TWO PONIES

The twins put on their magic shoes and made a wish, and instantly they were whirled away through space and landed lightly as thistle-down in a place away out west that it would have taken us days and nights on a train to get to. But Nancy and Nick were there as quickly as you could jump over a fence or a caliche. They looked around curiously at the miles and miles of flat country that they didn't see the surprise waiting for them. A clear stream was flowing by, with cottonwood trees growing on each bank and all sorts of green things like a garden. And tied to one of the trees were two ponies—one white and one black, with saddles and bridles, all ready to go. "Jump on," said the white pony. "I'm yours, Nancy, and Nick, you're to ride Blackie, my brother. My name's Snow. We're going to take you to the Red Rock cave in the mountains where Master Gallop lives. If you listen you can hear him hoarse any time. Jump on!" Nancy and Nick, at the word "mountains" forgot to thank the pony. Everything had happened so quickly they had scarcely had time to get their breaths, so if they forgot their manners for a minute it wasn't to be wondered at. Beyond the place where the ponies were tied the mountains rose so high in the air the twins had to tilt their heads back to see to the top. And on the tippy top of the highest point there was snow, like whipped cream on top of chocolate cake. Then Nick remembered his manners. "This is a fine place and we're going to like it. Well, all we can do is help Master Gallop all we can. What does he do?" "He's sort of an overseer," said Blackie. "Someone has to run things out here and see fair play. It's a funny job, but it's a job. A cowboy and a horse man, and a handkerchief round his neck and carries a lasso. He rides a horse called Echo. If you listen you can hear him hoarse any time. Jump on!" Nick jumped on Blackie, Nancy climbed up on Snow, and away they went.

23 SAILORS DEAD, AND 15 INJURED

Seven U. S. Destroyers Held
Fast Between Rocks Off
Point Arguello Light

Ships Fast Approaching Total
Wrecks by Incessant
Pounding of Surf

SANTA BARBARA, Cal., Sept. 10.—(By the Associated Press.)—Twenty-three sailors dead and 15 injured, seven destroyers held fast between rocks off Point Arguello light, in the Pacific ocean between San Francisco and Los Angeles.

These are outstanding consequences of the navy's major marine disaster in Pacific waters. The injured are being nursed at hospitals here, a train load of survivors is headed for San Diego, the naval base, while the seven ships are approaching total wrecks by the incessant pounding of the surf.

The warships went ashore while enroute from San Francisco to San Diego Saturday night shortly after dark in relation to the east line, is believed to have caused the crash. The destroyers were speeding through the fog, hunched the shore in single file formation, when they piled up on the rocks from 200 to 300 yards apart about two miles off shore.

The fatalities were divided between two destroyers, one wrecked from the Pacific and the others died on the destroyers. The ship which was wrecked sank in one minute and 37 seconds after the crash.

The ship destroyers, the S. P. Lee, Nicholas, Fuller, Chamorro and Woodbury, were around in position which gave their officers and crews a better chance for their lives than was afforded the crews of the other craft.

The initial wreck came while the destroyer Benham, a member of the squadron, had left the straggling line, attracted by open sea. The ship was wrecked on a rocky point, the ship's hull was broken in two, and the ship was wrecked. The ship was wrecked on a rocky point, the ship's hull was broken in two, and the ship was wrecked.

With a heavy surge, the two Benham and the ship were standing by the ship and the ship was wrecked. The ship was wrecked on a rocky point, the ship's hull was broken in two, and the ship was wrecked.

Two destroyers of the Benham, which were wrecked, have left for San Diego with part of the crews of the straggled craft, while others have been sent away by train. A number of the ship's crew have been left at the point of the wreck. Two more ships are expected to arrive at the same time. Until the high surf has subsided, it will be impossible to salvage any material from the seven destroyers.

Report From Admiral Robinson
WASHINGTON, Sept. 10.—A message received at the navy department early today from Admiral Robinson, commanding the Pacific fleet, said no material could be salvaged from the seven destroyers wrecked on the California coast at Point Honda until the heavy surf abated. The message did not refer to the number of lives lost. Georgetown to have been played.

Tidal Wave Responsible
WASHINGTON, Sept. 10.—The theory was expressed by high naval officials today that a tidal wave or other seismic disturbance, coming from the Japanese earthquake, caused the disaster to destroyer division No. 11 off the California coast yesterday.

Reports from naval officials on the Benham have not yet given complete information of the Benham and the Benham. The Benham was wrecked on the Benham. The Benham was wrecked on the Benham. The Benham was wrecked on the Benham.

"Until the department has complete information," said Secretary Denby, "we must withhold any formal statement. We can only express regret for the accident and deep sympathy for the loss of the lives so comparatively high."

An investigation already is under way under naval regulations.

Ireland Unanimously Elected to League

GENEVA, Sept. 10.—(By the Associated Press.)—Ireland was unanimously elected to membership in the League of Nations by the assembly today.

LOWELL DISTRICT COURT

Many Homes Wrecked by
Moonshine—Fines Imposed
in Liquor Case

Being husbands who imbibed too freely over the week-end, and then fell back upon such things as flatirons and axes with which to impress their superiority over their respective wives, did not fare very well before Associate Justice Dickinson in district court today. One of them, however, did not rely upon manufactured tools to leave his mark, but instead took a walloping bite on the shoulder of his 15-year-old daughter. The girl bared her shoulder and displayed the marks of the tooth of her father, John Bourke, who was charged with drunkenness. His wife testified against him, saying she was obliged to call in the police yesterday to restore peace and quiet in their home. Mrs. Bourke also said that her husband was sometimes free with his fists upon her.

Bourke denied the stories and said that he was the victim of an assault by his wife yesterday. But the court was not inclined to believe his story and he was ordered committed to the house of correction for a term of three months.

Adam Dickson was sent up for one month for drunkenness after his wife had testified that he tried to hit her with a flat-iron yesterday, forcing her to run out of the house for safety. She said he had been drinking hard of late.

Mrs. John L'Heze testified that her husband had not worked for some time and made only a bluff at looking for work and had drunk heavily. She said that she had been supporting him for some time past. L'Heze said he had a job to go to and the court decided to give him another chance. A two months suspended sentence was imposed.

Joseph Peters was also confronted with his wife when his case of drunkenness was called. Mrs. Peters said that he threatened to kill her last night and that he had previously assaulted her. There is a non-support case pending against the defendant and the court confined the case until Friday.

John Watson of North Chelmsford, who was charged with drunkenness and Officer Fred Vint said that Mrs. Watson had complained that her husband threatened her with an axe. Watson claimed the trouble at his house yesterday upon some out-of-control friends who brought moonshine to the house. He made a solemn promise to do better and he was given a suspended sentence of two months.

James McKeen was charged with drunkenness and his case was continued for ten days to allow him time to make restitution for damages he caused by mashing his hand through a green car window. His hand was badly injured as a result of this and he was removed to St. John's hospital and later taken to the police station.

Mrs. Peter and John E. Cadogan were each sentenced to three months in the house of correction after being charged with charges of bad and lascivious cohabitation. They were each held in bonds of \$200.

Auto Law Violations
John Allen was fined \$10 on a charge of operating an auto while under the influence of liquor, and \$25 on a drunkenness complaint. He pleaded not guilty but the officers testified that he was driving in a reckless manner on Merrimack street yesterday, that he refused to stop when ordered and that he swerved property of others. The attention of the officers was attracted to him when he drove his car into a red light on a pile of pavingstones on East Merrimack street.

Philip Bogachow was fined \$10 on a charge of operating an auto while under the influence of liquor and a drunkenness complaint was filed. The defendant drove his car into a yellow taxi yesterday and the court was informed that he had already paid \$10 to cover the damages he caused to the taxi.

Joseph Ouellette of Methuen was charged with operating an auto while under the influence of liquor and a drunkenness complaint was filed. The defendant was injured by a car and a drunkenness complaint was filed. The defendant was injured by a car and a drunkenness complaint was filed.

The defendant was injured by a car and a drunkenness complaint was filed. The defendant was injured by a car and a drunkenness complaint was filed. The defendant was injured by a car and a drunkenness complaint was filed.

The defendant was injured by a car and a drunkenness complaint was filed. The defendant was injured by a car and a drunkenness complaint was filed. The defendant was injured by a car and a drunkenness complaint was filed.

SAM WHITE'S DAUGHTER, LASSITUDE AND A LARGE PORTION OF THE KITCHEN STOVE WERE BLOWN THROUGH THE WEST WALL WHEN THE HOT WATER BOILER BLEW UP AT THE CENTRAL HOTEL TODAY.

Greek Ship Reaches Corfu

Continued
governor, told the correspondent that arrangements were being made at the request of the Near East relief to transfer 1500 Anatolian refugees to Greece.

Large quantities of stores for the forces of occupation continue to pour into the island. Apart from this activity the town remains calm.

Greece Yields

ATHENS, Sept. 10.—(By Associated Press.)—Greece has replied to the note of the council of ambassadors, announcing her readiness to conform with the decision of the ambassadors with regard to Italy's demands in connection with the killing of the Italian members of the Greek-Albanian boundary commission.

A semi-official statement issued yesterday denies that there have been any anti-Italian disorders at Patras or any demonstration against the Italian consulate. It also denies that there is any truth in the report that Greece has issued an ultimatum to Albania.

At a meeting of the Athens chamber of commerce Saturday, a resolution was passed saying that in view of the recommendation of the League of Nations that both Greece and Italy should abstain from provocative acts, the resolution of the chamber in favor of a boycott on Italian merchandise would be reconsidered.

To Consider Greek Reply

PARIS, Sept. 10.—(By the Associated Press.)—A meeting of the inter-allied council of ambassadors was called for 1 o'clock this afternoon, for consideration of the Greek reply to the terms laid down by the council for settlement of the Greco-Italian dispute. Final arrangements will be made also for the work of the investigating commission.

A telegram from Viscount Ishii, president of the League of Nations council, acknowledging the receipt of the text of the ambassadors' decision, will likewise be placed before the council. Viscount Ishii in this communication expresses the desire of the council to be kept informed of the progress of the ambassadors' action.

having drunk liquor, but did not think he was under its influence.

Antonio Gabet was fined \$35 for operating an auto while under the influence of liquor, and \$15 each on complaints of operating without a license and without registration. He pleaded guilty to the complaints.

Liquor Dealers Fined

Peter Hernandez pleaded guilty to a charge of illegal keeping of liquor and a fine of \$100 was imposed. On a similar complaint, Eli Grotman was also fined \$100.

Leonard Desjardin pleaded guilty to an illegal sale of liquor in Dorset and he was fined \$100.

Joseph Wasnik pleaded not guilty to a charge of illegal keeping of liquor, and also to complaints of operating an unregistered automobile without a license, and the cases were continued to Sept. 22.

The continued case of John Simon charged with an illegal sale of liquor, was further continued until Saturday. William O'Connell pleaded not guilty to a charge of assault upon an officer and a continuance was granted until Sept. 15.

Peter Desjardin pleaded not guilty to a charge of illegal keeping of liquor and the case was continued 10 days. Drunkenness complaints against Stanislaus Chopolnicki, Manuel V. Silva, Albert E. Vasser, were filed.

City Solicitor and Mrs. P. J. Reynolds are rejoicing over the birth of a daughter, which occurred last Saturday evening. The little John J. Donavan.

MATRIMONIAL

Gay—Hayes

Mr. Herman Gay and Miss Mary Hayes of North Billerica were married yesterday afternoon at St. Andrew's rectory, North Billerica, by Rev. Charles J. Sullivan, D.D. Miss Alice Hayes, a sister of the bride, was bridesmaid, while the best man was Mr. Frank Lawrence of this city. At the close of the ceremony a reception was held at the home of the bride's mother, Boston road, and later the happy couple left on an extended honeymoon trip.

Burns—Sullivan

Mr. Francis Williams Burns, prominent leather salesman of Boston, and Miss Grace Dorothy Sullivan, well known local graduate nurse, who for the past several years has been in charge of the operating room of the Codman square hospital, Dorchester, were united in marriage at St. Margaret's rectory yesterday afternoon at 5:30 o'clock by Rev. Charles J. Sullivan, pastor.

The bride was attended by Miss Genevieve Burns of Dorchester, sister of the bridegroom, while Mr. John J. Morris, also of Dorchester, acted as best man. The bride looked charming in a gown of cream colored satin, back crepe with picture hat to match. She carried a shower bouquet of pink roses. The bridesmaid was becomingly attired in blue satin-back crepe with a picture hat to match. She carried Ophele roses.

The bridegroom's gift to his bride was a platinum bracelet. His gift to the best man was a white and silver ring. The bride's gift to her bridegroom was an amethyst ring.

Following the ceremony the bridal party repaired to the home of the bride's sister, Mrs. William H. Sullivan, 42 Forest street, where a reception was held and dinner served to immediate relatives of the contracting parties by Lydon, the caterer.

The happy couple were the recipients of many beautiful and useful gifts.

OLD BELVIDERE CLUB BOSTON MAN

Reunion of Well Known
Organization Yesterday at
Salisbury Beach

The old Belvidere club which flourished and promoted sociability and good fellowship back in the halcyon days of 1900 and thereabouts, but which ceased to function actively along about 1906 when several of its members forsook the ways of single blessedness, held its first reunion in 15 years yesterday at Salisbury, the old stamping ground of the organization for two weeks every summer back in the misty days of yesteryear. Of the "old gang," still young in spirit despite the advancing years which must exact a toll, eleven motored to the beach yesterday and pulled up in front of the Newark house, the same hostelry which housed them in years gone by, although altered and changed somewhat and modernized since several disastrous fires.

At yesterday's reunion were William J. Flanagan, James H. Casey, Charles P. Smith, James E. Burns, Francis A. Burns, Michael H. Finnegan, Eugene Queenan, Terrence D. Leonard, Thomas P. Carr, Patrick J. Mooney and Walter King. Four other members who were unable to be present were Stephen Flynn, William J. McLaughlin, Hugh P. Farley and John L. Boulger.

Many of the old time sports were visited at the beach, but the general complexion of this now popular summer resort has changed so in recent years that scarcely any of the well known landmarks of 20 years ago exist.

Yesterday's reunion was such a success that it was decided to hold a reunion for families of members at Charlie Smith's camp on the Concord river on Sept. 23.

It is probable that reunions will follow annually, at least that the feeling expressed yesterday, for the old comradeship still exists and on member wants to see his flame die out.

LOWELL AD CLUB

Plans were laid for the forthcoming

QUAKE HERO

Bravery of Capt. Swain, Who
Despite Two Broken Legs,
Directed Rescue Work

Gave Instructions for Saving
Guests and Cheered the
Injured

LONDON, Sept. 10.—The bravery of a Captain Swain of Boston, believed to be in the service of the Canadian Pacific, who despite two broken legs, directed rescue work at the Bluff hotel, Yokohama, is related in a Shanghai dispatch to the Daily Telegraph, quoting Mrs. H. K. Dinklow of Keokuk, Ia. Not only did he give instructions for saving the guests, but he cheered the injured, and by his courage many were saved who otherwise would have perished.

Miss Katherine Elder, a sister of Mrs. Dinklow, was in a Yokohama street car when the first earth shocks occurred. The street car was derailed but she, with her sister's baby, miraculously escaped. As the car burst into flames, she jumped into a canal, avoiding the showers of red hot cinders and ashes that filled the air as the building in the vicinity toppled.

Miss Elder stayed in the water until 7 o'clock in the evening.

ROLLER SKATING

SEASON REOPENED

The local roller skating season will be reopened at the Crescent rink in Bradford street this evening, to be continued through the fall and winter months.

A new supply of the latest skates, both wood and fibre rollers has been secured; likewise several new music features, including all the latest and popular hits of the season.

For the present sessions will be held every evening, except Thursday. On Saturday sessions will be held afternoon and evening.

Convention of the associated ad clubs of New England will visit the Maine metropolis for three days commencing Sept. 23.

ESTABLISHED 1878

LOWELL, MASS. MONDAY, SEPTEMBER 10, 1923

PRICE TWO CENTS

TOTAL ECLIPSE OF SUN VISIBLE HERE AT 4.44 P. M. TODAY

Most Important Astronomical Event of the Year—Eclipse Will Be Total in California—42 P. C. of the Sun Obscure in Lowell and Vicinity

The most important astronomical event of the year—a total eclipse of the sun—will be visible in whole or part throughout the greater part of the United States today.

The eclipse will be total in California, but in every other state of the union the eclipse will be partial, the area of observation of the sun's body getting smaller and smaller as the distance increases from the path of totality.

Thus in Lowell, 42 per cent of the sun will be obscured, while in New York the percentage will be 46, Washington 50, and so on down to the area of totality.

The eclipse begins at sunrise in the Pacific at a point almost due west of Nome, Alaska. The path of totality, which means a belt 10 miles wide, will then sweep in a southeasterly direction down the eastern section of the Pacific and strike the coast of California at Catalina Island, which is almost in the center of the totality belt. Still

ONE-EIGHTH OF QUOTA RAISED

Japanese Relief Fund of Lowell Chapter, American Red Cross, Has Fair Start

First List of Donators Shows City is Responding to Urgent Call

Minimum of \$8000 Wanted Here and Large Volume of Small Subscriptions Asked

Up to this noon Lowell men and women had pledged \$1026.54 to the National Red Cross fund for Japanese relief. This city's quota is \$8,000 and local organization officers said today the drive will be continued until the full amount is secured.

Since the splendid war time work the Red Cross has done for the public only occasionally for funds and what is more, it is felt the present call is of great urgency and justification. A great and awful calamity has befallen the country of Japan. Thousands have perished and other thousands are homeless and without food. This nation, through the agency of the Red Cross, is asked to give of its vast financial resources to aid in the task of bringing relief into the country which now stands desolate. Lowell must play her part and give her share to the local Red Cross organization has undertaken the job of raising the assigned quota of \$8,000.

To date the subscriptions and

TO SELECT PLACE FOR G. O. P. CONVENTION

WASHINGTON, Sept. 10.—After a conference today with President Coolidge, Chairman Adams of the republican national committee said the committee probably would meet in Washington in December to select a place for the 1924 national republican convention.

All the cities that have issued invitations will be given a full hearing, Mr. Adams said. He added, however, that a final decision would be deferred until satisfactory assurance had been given with regard to hotel rates and other charges.

PROBE TELEPHONE SERVICE IN R. I.

PROVIDENCE, R. I., Sept. 10.—Gov. William S. Flynn today requested that the public utilities commission inquire into the quality of service now being furnished by the New England Telephone & Telegraph Co., and if found that an immediate improvement in the "inferior service" is impossible, to demand a temporary modification of rates.

Ambassador Asks That Million Dollars of Red Cross Be Made Available at Once

Medical Supplies and Food Urgently Needed to Alleviate Suffering in Japan

Casualties in Tokio and Yokohama Set at 50,000 Dead, 100,000 Injured

WASHINGTON, Sept. 10.—Reporting that an epidemic of fever had broken out in Tokio, Ambassador Woods in a cable to the state department today, said it was imperative that one million dollars of American Red Cross be placed immediately at the disposal of its relief committee in Japan for the quick purchase of medical supplies and food from nearby markets.

Ambassador Woods also reported the appointment of the Red Cross relief committee in his message, which read as follows:

"In accordance with instructions, have appointed American Red Cross

GIANT PITCHER FINED AND SUSPENDED

NEW YORK, Sept. 10. John Watson, pitcher of the New York Giants has been fined \$500 and suspended for the remainder of the season by Manager McGraw for violation of training rules, according to word received from Boston, where the champion arrived today to begin a series with the Braves.

McGraw's drastic punishment, according to the advices, was meted out when the pitcher reported in unfit condition for the trip to Boston. He had been warned several times previously for infraction of rules, it was said.

Watson came to the Giants in mid-season from Boston on a deal in which he and Catcher Hank Gowdy were traded for Pitcher Jess Barnes and Catcher Earl Smith of the champions.

TO PREVENT GOUGING OF COAL CONSUMERS

HARRISBURG, Pa., Sept. 10.—(By the Associated Press.)—Gov. Pinchot of Pennsylvania today sent letters to the governors of all anthracite-producing states suggesting investigation of methods "to prevent gouging of coal consumers, with a view to a personal conference later concerning joint action."

Mr. Pinchot's letter was in line with that which he sent President Coolidge last night suggesting steps be taken by federal and state agencies to safeguard the public against any increases in coal prices as a result of the 10 per cent wage advance for miners embodied in the new agreement.

Murder Search Extends to Upton's Pond Near Junction of Tyngsboro and Dunstable Roads

The murder search today extended to Upton's pond in Tyngsboro, a small body of water to the left of the state highway at the junction of the Tyngsboro and Dunstable roads. The deep-sea diver secured by the district attorney's office to work in the Merrimack river will search the bottom of the pond for the head of the murdered woman, beginning tomorrow.

This extension of the search was ordered today by District Attorney Arthur K. Reading after communication with Chief Detention of the Tyngsboro police. The divers work in the waters of the river practically is completed.

The two suitcases in which parts of the woman's body were found have been sent to a large suitcase manufacturer for the purpose of measurement and further examination. The police are positive the suitcases are of the automobile luggage type and are made particularly for some type of car. It is for the purpose of ascertaining what car they were made for that they were sent to a large manufacturer today.

If, after measurements, it is ascertained what make of car is involved, an exhaustive search will be made of all garages and repair stations in Boston and vicinity in an effort to locate the machine wanted. The police feel this is the car that plunged through

the guard rail of the Tyngsboro bridge the night the suitcases were believed to be tossed into the stream.

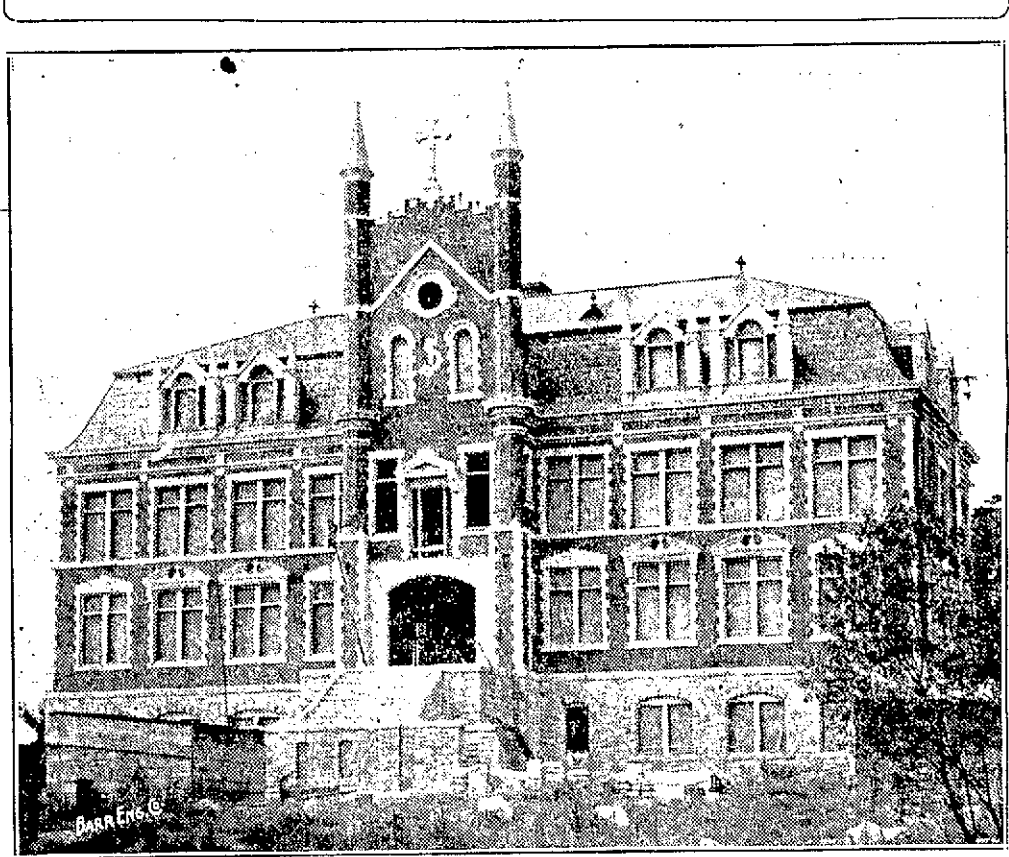

John D. Robinson, a veteran diver, after working on the case for several days, has told the district attorney he believes the heavier of the two suitcases found was thrown into the water from a point on the shore and not from the bridge. It was too heavy to be carried downstream to the point where it was found from the bridge location, he asserts.

The dismembered parts of the body were taken away from Lowell today in order of District Attorney Arthur K. Reading. They were taken to Boston this noon by Undertakers J. E. O'Donnell & Sons, where an autopsy will be performed by Dr. McGrath, medical examiner for Suffolk county and considered one of the country's leading criminologists.

On request of the district attorney's office Dr. McGrath will examine the body in an attempt to shed some light upon the identity of the woman and her violent death, but without the head, which still is missing, the police admit identification is almost impossible.

With the passing of the days—it

MARIST BROS. NEW JUNIORATE IN TYNGSBORO

The new Juniorate of the Marist Brothers, situated on a lofty knoll of the Tyng estate in Tyngsboro overlooking the Merrimack river, is rapidly nearing completion and it is believed that within four or five months this beautiful building will be ready for occupancy.

Built with red brick, with granite facings, and decorated with several towers topped with gilt crosses, this building stands out prominently on an estate that was a central figure and landmark in the early Colonial days.

For years the only Juniorate of the Marist Brothers in the northeastern part of the country has been located at Poughkeepsie, N. Y., and the building there has been inadequate to meet the growing demands of the order. The new Juniorate here will not do away with the Poughkeepsie school, but will bring to Lowell all the boys in eastern New England who desire to study

for a religious life in the Marist order.

Situated at a distance of only six miles from the center of Lowell and but 22 miles from Boston and served by both train and trolley, the location is ideal for the building's purpose.

The Juniorate comprises two buildings, one to be used for school room and dormitory purposes and the other for kitchen, refectory and chapel. The main building faces on the Princeton boulevard. The outside of this building is practically completed but the inside is still in the early stages of construction. This building is three stories in height. The first and second floors will be used for school room, laboratory and other school necessities and on the top floor will be the dormitories. The latter will accommodate about 100 boys.

The second building is situated directly in back of the main building. The basement section of this building is

R. R. FIREMEN KILLED, SEVEN PERSONS HURT

ROANOKE, Va., Sept. 10.—J. P. Talley, fireman, of Roanoke, was killed and seven persons were injured when a Norfolk and Western south-bound freight train left the tracks a few miles north of Roanoke today and plunged into a rock quarry, where a number of men were at work.

FEARS SON DROWNED IN NAVAL ACCIDENT

A Lowell youth, Thomas F. Rogers, may be among the 25 American naval destroyers run aground off the California coast yesterday. The casualty list contains the name "T. F. Rogers" and Michael Rogers, of 55 Humphrey street, has his eyes on the first initial may be wrong in the report.

When last heard from the boy, whose brother, George Francis Henry Rogers, met death while serving on a destroyer during the war, was on the "Black Hawk" and expected to sail shortly with relief supplies for Japan. His father fears that he may have been transferred to the last minute to one of the even ill-fated craft and is anxiously awaiting definite word.

SCHOOLS OF CITY OPEN AGAIN WITH LARGEST ENROLMENT IN LOWELL'S HISTORY

There were whisperings of approaching autumn and retrospections of departing summer in the atmosphere this morning as thousands of public and parochial school children once again abandoned vacation thoughts and turned their attention to the educational subjects they are to pursue until another June is calculated on the records of school departments. Although a definite estimate of the total

50 PERSONS REPORTED KILLED BY EARTHQUAKE IN CALCUTTA

LONDON, Sept. 10.—(By the Associated Press.)—Fifty persons are reported killed or injured in an earthquake which shook Calcutta today, says an Exchange Telegraph despatch from that British Indian city. The reported casualties occurred in the Nymensingh district, where many houses collapsed.

SERIES OF EARTHQUAKES ZURICH, Sept. 10.—The seismograph at the Zurich observatory at 2.07 o'clock this morning recorded a series of earth shocks lasting several seconds at a distance of 10,000 kilometre (6210 miles.) The center of the disturbance was thought to be in China.

Populations in Occupied Areas of Germany Ordered to Stop Passive Resistance

Direct Negotiations Between France and Germany Said to Be Imminent

LONDON, Sept. 10.—(By the Associated Press.)—The populations in the occupied areas of Germany have been ordered to discontinue the passive resistance to the French and Belgian authorities according to the Central News correspondent in Berlin.

"I learn," the correspondent telegraphs, "that the German capitalists have decided to send a representative to Paris with the object of ascertaining to what extent France is prepared to make concessions to Germany."

"Direct negotiations between the two governments are believed in political circles here (in Berlin) to be imminent."

Germany Has Lost Fight
PARIS, Sept. 10.—The news from Berlin of the declarations made by Minister of the Interior, Solmann, stated to be with the approval of Chancellor Stresemann, which was received here, declares in effect that Germany has lost her fight in the Ruhr and must negotiate, has been received with great interest in official circles where a break in the German resistance has been expected. There is an inclination in government quarters, however, to regard the minister's declaration as only for the preparation of a final opinion in Germany.

It is anticipated that a considerable time must elapse before the Berlin cabinet is ready to enter into direct and serious negotiations.

**IRISH IRREGULARS
ATTACK GUARDS**
ATHLONE, Sept. 10.—The military guard at the Ballinacree railway station, county Galway, was twice attacked by irregulars last night.

After being beaten off the first time, the irregulars returned with reinforcements and concentrated a heavy attack on the barracks of the station.

Wills Fails in Efforts to Block Big Fight
NEW YORK, Sept. 10.—Harry Wills, negro heavyweight today failed in his efforts to block the Dempsey-Firpo championship bout at the Polo Grounds next Friday night. Supreme Court Justice Hagarty in Brooklyn denied his application for a writ of mandamus. Justice Hagarty in his decision declared that the Firpo-Dempsey match complied with all requirements of the state boxing law and did not conflict with any contract that Wills signed with Dempsey more than a year ago, shortly after the negro's challenge was filed with the state athletic commission. It was under this contract that Wills claimed to have prior right for a bout with the champion, but at the hearing last Friday it was pointed out by the commission in answer to Wills' charges that this agreement left either principal free to fight any other opponent.

INDUSTRIAL WAGES HAVE LED INCREASE LOCAL PASTOR TENDERS HIS RESIGNATION

According to the current number of "The Guaranty Survey," published by the Guaranty Trust company of New York, the advance in industrial wages since February has been greater than in any like period since 1920.

"This rise," the survey states, "is now being retarded. Prices have been falling since April with a tendency toward stabilization in recent weeks. Expanding labor costs and declining prices portend smaller profits. The lag in the advance in the cost of living means that the money wages of industrial workers command an increasing quantity of commodities. With practically full employment, these workers are in an increasingly favorable position, while their employers find it more and more difficult to earn a profit."

"The earnings of office employees and of farm laborers have not advanced nearly so much as have the wages of factory workers in general. The favored employees therefore are really gaining their advantage in large part at the expense of their fellow-workers in other positions."

"The outstanding feature of the trend of wages since the war is the persistent and increasing relative spread of industrial wages above the cost of living. This advantage, which has been extended as a representative of the status of all classes of wage earners, and its continuance assured, it would signify a notable permanent advance in the standard of living of the wage-earning classes."

"This same widespread groups of workers have not only failed to share equally in such gains, but are actually falling behind the high industrial wage. The resulting situation is accordingly unstable."

"At their respective peaks in the latter half of 1920, factory wages in New York were 125 per cent. above the level of 1914. During most of the subsequent period, and especially in the last 12 months, the spread between the curves of these wages and living expenses has grown wider. In June, 1922, the index of factory wages was 116 per cent. above the 1914 level. The cost of living in July was 92 per cent. above the pre-war level. In other words, the remuneration of factory workers has shown a net decline from the 1922 peak of only 4 per cent. while the estimated cost of living has declined 24 per cent. The sharp rise in wages last year has been accompanied by a very moderate advance in the cost of living."

"Wages of farm laborers advanced relatively in about equal degree with factory wages until 1920. At that time, as shown in the average for that year, farm wages were 122 per cent. above the 1914 average. They fell sharply in 1921 and the decline continued in 1922. In April of this year farm wages were slightly above the level of 1920 and 12 per cent. of that of 1914, while factory wages were more than double the pre-war rates."

"The available data confirm the general opinion that in the war and post-war shifting of prices and wages the compensation of manual, as compared with mental, workers has been relatively very low. The average compensation of these workers has lagged far below the relative level of the cost of living almost throughout the period since 1914. In 1920 the compensation of these workers has remained almost stationary."

Dutch chair carbon dioxide instead of air into their butter to keep it from deteriorating.

Rev. Arthur G. Lyon, pastor of Pawtucket Congregational church for the past seven years, on yesterday made known from the pulpit his desire to resign his duties, effective Oct. 15. Dr. Lyon has been in the ministry for twenty-five years and plans to go to Florida for his health.

He and Mrs. Lyon spent several months in Florida last year and were benefited thereby. In his letter of resignation, Dr. Lyon refers feelingly to his reluctance to "close this most happy pastorate of all my ministry."

OBSERVANCE OF JEWISH NEW YEAR

With the setting of tonight's sun the Jewish Year 5684 will be ushered in. Observance will continue on Tuesday, and in the orthodox congregations, Wednesday, New Year, which falls on the first day of the seventh month, Tishri, in the Jewish calendar is not known scripturally by that name. Rather it is the "Day of the Memorial of the blowing of the Trumpet." The Jewish New Year is the commencement of a long line of holy days.

It is to be noted that this is the day of the new moon of the seventh month. The new moon was observed as a holy season by the Jews of old. The seventh month was particularly a holy month, as the seventh day was the holy day of the week, hence the new moon of the seventh month was invested with a significance of far higher import than the other new moon days of the year.

As in all holy seasons, no work, no useful occupation is to be followed. The feature of the service is the blowing of the "shofar," the ram's horn trumpet, which is to arouse the Jewish people to their duties and remind them of their failures.

The days intervening between New Year's day and the day of atonement are called the Ten Days of Penitence, culminating with the Kol Nidre services, on the eve of the day of atonement.

RESUMES ATTACKS ON COOLIDGE'S SECRETARY

WASHINGTON, Sept. 10.—The democratic national committee resumed today an attack on C. Cassius Stump, secretary to President Coolidge by alleging that he had been removed from the office of Mr. Stump while he was a member of the house from Virginia.

The letters were signed by Mr. Stump's secretary and concerned federal appointments. Representative Harrison, democrat of Virginia, during the last session of congress, attacked Mr. Stump's methods of dispensing patronage.

LEAGUE ELECTS DR. PERROA OF BRAZIL

GENEVA, Sept. 10.—(By the Associated Press.)—Dr. Epitacio Pessoa of Brazil was elected to the permanent court of international justice at The Hague by the assembly and council of the League of Nations, voting concurrently this morning. He succeeds the late Ruy Barbosa, also of Brazil.

One Year to Pay —FOR A— Crawford Range

At the Cash Price. (No Interest or Other Charges)

So if you have thought of buying another range because you could get easy terms or so-called club plan, you need not deprive yourself the pleasure of owning Crawford on that account, for we will give you one year's time to pay for any Crawford Range, whether it cost \$61.00 for an 8-18 Fairy or \$285.00 for a Gray Enamelled Combination Coal and Gas Range. But the best part of the offer is that you can buy it on those terms at the regular listed cash price. This, we believe, is the only store that does not charge 10% more on the purchase of a range on credit over the cash price. If you doubt that, ask for the discount for cash. It's 10% less for cash and 10% more for credit, or \$5.00 to \$25.00 more on a Range. You save that much by buying a Crawford Range.

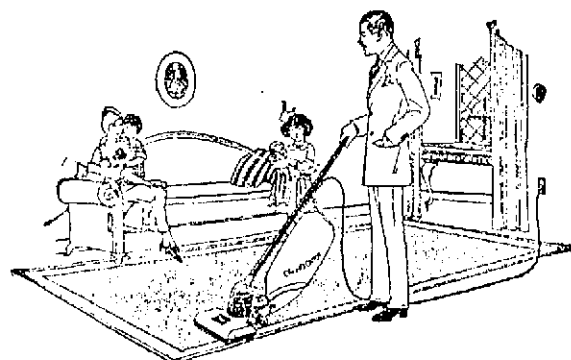

Those who prefer to pay cash cannot find fault as they are getting the bottom cash price, and those buying on credit can rejoice at the saving. On our part, we expect to make as much on our total range business by selling many more ranges to people who want the best range and are not buying terms or discount.

THOUSANDS SEE RUINS OF SPRINGFIELD BRIDGE

SPRINGFIELD, Sept. 10.—Working through the night Saturday and all day yesterday, big gangs of public service employees partially restored telephone and electric service to West Springfield, which was cut off when the cables connected with the North End bridge snapped as the structure collapsed during the fire Saturday.

Electricity was furnished so that homes on the west side were lighted last night, but not enough to operate the street lights, and the thoroughfares of the town were in darkness. By today, it is said, enough wires will be laid to handle all the lights. All industrial plants will be supplied with power. The telephone lines, about 800, which were cut out of commission by the fire, will not be in working order before Wednesday.

The ruins of the bridge, still flaming and smoldering in spots, were viewed by thousands of sightseers from all sections of Western Massachusetts yesterday. Plans are under way for the replacement of the bridge.

Traffic is being handled across the new Memorial bridge and big gangs of workers yesterday were laying trolley tracks through Vernon street to look up with those already on the bridge so that traffic between this city and the other cities and towns in Western Massachusetts could be resumed. It will be ready Wednesday.

CENTRALVILLE SOCIAL CLUB HOLDS OUTING

About 300 men participated in the annual outing of the Centralville Social club, which held yesterday at Abundant in Great. The affair was one of the most successful of its kind ever conducted by the organization and the committee in charge was warmly complimented for the success achieved.

At 2 o'clock in the forenoon motor trucks and electric cars were pressed into service and the happy excursionists were conveyed from the club rooms in West Sixth street to the outing grounds, where a day of pleasure was spent. The weather was ideal for such an event, and all present made the day a most enjoyable one. A varied list of sports including the traditional ball game as well as a boxing match between Timmer Hebert and Amadeo Perron, was conducted and suitable prizes were awarded the winners. The committee in charge included: Ferdinand Lussier, chairman; George Peduncul, treasurer; George J. Pike, secretary; Henry Nadeau, Joseph Field, Wilfred Marchand, Lucien Lussier.

INQUEST FOR MONEY
BIRMINGHAM, Eng., Sept. 10.—Twenty pounds in gold, found by a boy, was the subject for an inquest recently. The jury learned the boy gave it to police immediately and did not try to hide it. As a result he may get a grant of 14 pounds by the government for his honesty.

AUTO STALLED ON TRACKS —ONE KILLED

BRUNSWICK, Me., Sept. 10.—Mrs. Grace Wallace, wife of Roy Wallace of Bath, Me., was killed and four companions were injured, two possibly fatally, in an automobile accident at Hillside Crossing, scene of many automobile accidents, four miles west of Brunswick, shortly after 7 o'clock last night.

Arthur Williams of Bath, the driver, was injured about the legs and his wife was injured about the back. Mrs. Morse and Miss Dine also suffered injuries to the back, while Miss Louise Morse escaped injury. All the occupants of the machine live in Bath and they were on their way to Bath from Portland. All were taken to a Portland hospital, where Mr. and Mrs. Williams' names were placed on the dangerous list.

The automobile stalled at the crossing was working, showing that a train was coming, on its way to Portland. Three machines sped across the crossing before the train arrived, but the machine operated by Williams stalled on the tracks.

The train struck the car in the center and tossed it about 30 feet to the highway. Mrs. Wallace was pinned under the machine and killed.

CATHOLIC NEWS

Rev. Dennis A. Sullivan, O.M.I., former assistant at the Immaculate Conception church, formally assumed the pastorate of the Sacred Heart church yesterday as successor to Rev. John P. Flynn, O.M.I., who goes to the Tewksbury novitiate. Rev. Fr. Sullivan addressed the congregation at all the masses yesterday. The Junior Holy Name society of the Sacred Heart church met yesterday afternoon for its regular monthly session.

At St. Patrick's church yesterday members of the Holy Name society received communion in a body. It was announced at all the masses that the Academy of Notre Dame will re-open next Wednesday. All the sodalities of the church will receive communion at the 8 o'clock mass next Sunday.

The Married Ladies' sodality of St. Peter's church will hold its regular meeting next Wednesday evening. The Society for the Propagation of the Faith will meet Thursday evening. St. Peter's Cadets, recently returned from camp, will receive communion at the 8 o'clock mass next Sunday. Members of St. Michael's Holy Name society received communion at the 8 o'clock mass yesterday morning. The first meeting of the fall season was held in the basement of the church last evening, with James Duddy presiding. Rev. James F. Lynch, spiritual director, in a talk to the members, advocated the appointment of an entertainment committee to develop plans for the coming season. His suggestion was adopted and the officers of the society appointed to devise ways and means of furnishing entertainment.

The Immaculate Conception sodality will meet tomorrow evening at 7:30 o'clock. English girls are tattooing their names on their wrists.

Full Details of Case Given by Mrs. Cook

"Since taking Tanlac I eat anything I want, even candy, and nothing hurts me," said Mrs. George H. Cook, residing at 250 Erie st., New Bedford, Mass. "Two years ago I had a severe spell of illness, and from then until I got Tanlac I was badly run down, extremely nervous and in an awful fix due to indigestion. My stomach just seemed to give out completely, every minute I was in pain or distress from sourness and gas, and this kept up even after I went on a strict diet. I couldn't sleep and mornings I felt as if I had no energy at all.

Soon after I got Tanlac I began to sleep and that indigestion pain and distress disappeared. Now I'm as well and strong as ever and I always keep some Tanlac in the house."

Tanlac is for sale by all good druggists. Accept no substitutes. Over 37 million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.—Adv.

Finally there will be the movie drama classic, "The Man Next Door."

AMUSEMENT NOTES
R. F. KEITH'S THEATRE

Stan Stanley, the bounding, bounding comedian will be with us again, this week after an absence of several years from this city. Nobody is just like Stanley. He is a part of every audience for a while. Then he mounts the stage and proceeds to unwork enough fun to do for a dozen ordinary acts. There may be funnier men than Stanley, but none are more original in their methods. The first business man will get many a good laugh out of his antics. In addition to being a funny man, Stanley is one of the most expert tumpline performers on any stage. He is sure to give a good account of himself, for there is no harder worker anywhere.

"Mother's Diary," which was written by Emmet Devoy, is one of the "better vaudeville" plays. Arthur Devoy and an excellent company, including Miss Evelyn Faber, will present it during the present week. Mr. Devoy, for several years, has sought to offer each season a sketch better than the one the year before. This year he believes he has his best one. It is a little moral on life, but put forward in real stage form.

Britt Wood, as the country choromani, with his harmonica, has been doing his stunt for three years without any rest. The demand for him is so great that he can't find time to do some of his farm chores. Honestly, though, Wood is a mighty capable performer, and one who always puts out plenty of laughs.

The Cosmopolitan Trio, made up of three well known grand opera singers, will give grand opera excerpts. The singers have all appeared in the best of productions, and they will be assured of a warm welcome here.

Then, there is Sally Beers, a youthful impersonator, who brings to her act something which is charming and delightful. She is absolutely new in this section of the country.

The two Lerner Girls, called the dancing sweethearts of vaudeville, will have Phil Shepherd to tap out tunes for them. All together the show is a snappy, classy one, and for a

feature.

The second feature for the first part of the week, "The Woman He Loved," is an intense emotional drama of Russian origin. An all-star cast will be staged in its presentation. A comedy, "When Knights Were Cold," is the third feature.

THE RIALTO THEATRE
Another big William Fox special production will be given its local premiere at the Rialto theatre tonight, when "The Town That Forgot God," a melodramatic story of small town life, will open a week's engagement. Directed by Harry Millarde, who staged the famous drama of mother love, "Over the Hill," "The Town That Forgot God" promises an entertainment of unusual merit and heralds a cast of screen artists worthy of special mention. What probably is the most sensational story and flood scene ever shown upon the screen forms the climax of this photodrama, according to advance reports, a whole city being demolished by the rushing torrent and terrific wind, while the storm and flood scenes were being photographed a number of cameramen, stationed at various points around the

area to be flooded, narrowly escaped drowning when the platforms upon which they were standing were washed away by the rushing current. The photographers, their cameras and all were caught in the torrent. It is announced, a notable cast of screen artists portray

the various difficult roles in this sensational story of rural life, including Jane Thomas, who has played feature roles in a number of William Fox Special productions. "Bunny" Grauer, said to be the world's greatest boy actor, has the leading role. This youngster started his career with David Warfield in his recreation of "The Return of Peter Grimm." Warren Green, Harry Donham, Grace Hartson, Francis Healy, Edwin Denison, James Devine and others of equal calibre. "The Town That Forgot God" is the picture that created such a furor when shown at the Tremont Temple, Boston, recently at \$2.00 prices. This is positively the first time that this picture has ever been in Lowell. The prices at the Rialto for this super production are ridiculously small. In the afternoon all seats will be 10c while in the evening the entire house will be 20c plus tax which totals 22c.

STRANGE FISH
MILFORD, Eng., Sept. 10.—A strange fish measuring 4½ feet around the head and 12 feet long has been caught by a trawler off the northwest coast of Ireland. The mouth is bottle-shaped and toothless, but the body resembles a shark's.

TO SCHOOL OR TO WORK

With the opening of the schools this week it is important that every boy and girl who can possibly do so, should report at some of the various schools provided for the purpose. The school authorities are anxious to have the children in school as early as possible, and the parents are urged to see that their children are properly prepared for the new school year. The school year is now beginning, and the children are being sent to school in large numbers. The school authorities are anxious to have the children in school as early as possible, and the parents are urged to see that their children are properly prepared for the new school year.

GERMAN TOYS AGAIN

Students of American toy stores are again being reminded that Germany is the source of many of the toys that are sold in this country. The toys are of poor quality and are often made of cheap materials. The students are urged to buy American-made toys, which are of better quality and are made of better materials.

The first time Germany came into prominence in the toy market was in 1914, when the American toy stores were flooded with cheap German toys. The toys were of poor quality and were often made of cheap materials. The students are urged to buy American-made toys, which are of better quality and are made of better materials.

THE MAN ABOUT TOWN

Henry Maguire, the new superintendent of the Centralville station of the postoffice, has already established himself in the hearts of the residents of that section of the city by his courteous attention to duty. There is no man in the city who is more popular than Mr. Maguire. He is a man of many talents and is a great favorite with the people.

American women and girls spend more on make-up than the entire country spends on bathroom equipment. The women are urged to buy American-made make-up, which is of better quality and is made of better materials.

The male mosquito never bites. He is a man of many talents and is a great favorite with the people. He is a man of many talents and is a great favorite with the people.

New text schools are to reopen, and the students are urged to buy American-made books and supplies. The students are urged to buy American-made books and supplies, which are of better quality and are made of better materials.

SEEN AND HEARD

"Liddle Boy" now is the model for a young man. He is a man of many talents and is a great favorite with the people. He is a man of many talents and is a great favorite with the people.

SQUARES DEDICATED TO WORLD WAR HEROES

Four public squares in memory of fallen heroes were dedicated by members of Lowell Post 57, American Legion, yesterday afternoon. The members of the post assembled at headquarters in the Memorial Auditorium at 130 O'Connell street, and marched through the business section of the city to Central and Charles streets, where the first dedication took place. The square being named in honor of Manuel Martin, who was killed overseas in the World War. The exercises were conducted by Commander Joseph A. Molloy and Rev. William P. Mahan, O.M.I., chaplain, while the Legion members and spectators stood for 30 seconds of silence in reverence to the memory of the fallen hero.

Similar exercises were held at the junction of Abbott, Wamsuit and Lawrence streets, dedicated to the memory of James H. Danckert; at Agawam, Andrews and Lawrence streets, dedicated to the memory of Francis Moberg; and the square at Moore and Corbin streets, dedicated to the memory of Bernard Harrington.

Autumn party by the Lowell Elks. The Lakeview hall will on Wednesday evening, be the scene of an autumn party conducted by Lowell Elks, 1410 Elks, the proceeds of which will be turned over to the Christmas charity committee of the lodge.

Berton Bralley's Daily Poem SOAP

I sing of Soap! Though I might sing
Of other matters broad in scope,
In fact of almost anything,
I sing of Soap!

Soap, which removes the grit and grime
That comes from sweat and toil and stress;
Soap—it's a lather which we climb
To cleanliness.

The simple savage knows it not,
But sits within his jungle patch,
Forever finding some new spot
That he must scratch.

But slip some soap to him and show
Its proper use; you'll be surprised
How rapidly he'll start to grow
More civilized!

Disease and dirt stalk hand in hand,
And with them it is hard to cope,
But in a real progressive land
There's always Soap!

And this thought bubbles in my brain,
Like soda water in a cup,
The nation rich in soap will clean
The others up!

Perhaps when tried out in the wash
Mine may prove unmercifully dope,
But, till that moment comes, I sing,
I sing of Soap!

(Copyright 1923, The Lowell Sun)

TWO YOUTHS DROWNED, GIRLS RESCUED

AMHERST, N. H., Sept. 10. Fred Twombly and Howard Pelletier, of Nashua, were drowned in Lake Umbagog yesterday when a canoe in which they were riding with two young women capsized. The girls were rescued by a nearby boat. The bodies of the two youths were recovered by a nearby boat. The bodies of the two youths were recovered by a nearby boat.

FIRE IN WOOD SHED DOES \$800 DAMAGE

A blaze in the sawing shed of the John P. Quinn coal and wood company in Gorham street, was responsible for a second alarm Saturday night. It was feared at first that the blaze would spread to other buildings and big lumber piles in the yard, but the quick work of the firemen checked the fire, but not before the shed had been destroyed and about 80 cords of wood burned.

The fire, which is believed to have been caused by a spark from a passing locomotive, was discovered shortly before 11:30 o'clock by Officer John Burns, who sounded an alarm from box 17. Several companies responded and when District Chief Sullivan reached the premises he ordered a second alarm sounded. Several lines of hose were laid and owing to the fact that the wind was blowing in a southerly direction, the task of putting out the fire was easier than at first anticipated.

While the firemen were coping with the flames a group of young men ran to the stables and led out all the horses, although it later developed that the animals were in no danger. The loss is estimated at about \$8,000.

At 2:30 o'clock yesterday afternoon a still alarm was sent in for a grass fire off Hale street, and at 4:30 o'clock a portion of the department was called by telephone to Willard street for a brush fire. Last evening a still alarm was sent in for a slight blaze in the plumbing of the Alkon street bridge.

SOUSA'S CORNETIST CONSUMMATE MASTER

When Lieut. Com. John Philip Sousa comes to Lowell on September 17th, on his thirty-first annual tour, he will have with him, among other notable soloists, John Dolan, considered by many critics and musicians, the best cornetist in the world. Mr. Dolan has all the qualities of an artist and, though the cornet is considered one of the most difficult of band instruments to master, he executes the most difficult selections with the greatest ease, and his tones are a joy to his hearers. He is the consummate master of his chosen instrument—the solo and concert cornet.

Other soloists appearing with Sousa's band this year are Miss Margie Moody, soprano; Miss Nora Danahy, soprano; Miss Winifred Hambrick, harpist; Miss Rachel Senior,

violinist; Meredith Wilson, flute; William Kunkle, piccolo; John P. Schuler, trombone; Joseph de Luca, euphonium; William Hall, sousaphone; and George Carey, xylophone.

BUILDING PERMITS FOR THE WEEK

REAL ESTATE TRANSFERS

Thomas H. Elliott reports the following sales in a sum total of \$40,000 negotiated during the past week:

On behalf of William Livingston, formerly of Lowell and at the present time of Chelmsford and St. Petersburg, Fla., conveyance has been effected of a suburban residential property situated on High street, Chelmsford Centre. The house is of full 2½-story type, and is surrounded by most attractive grounds. The land involved totals five acres. There is an excellent garage on the premises. The grantees are John O. Pearson and George M. Pearson of Lowell. Mr. and Mrs. Pearson are already in occupancy of the premises.

Final papers have been sent to record through this office in the transfer of a residential property at 1531 Middlesex street, directly at the head of Wolcott street. The house has eight rooms and is modern to the last detail. The land involved approximately 3400 square feet. The sale is effected on behalf of the grantor, William H. Ball, the purchaser being Frank O. Quigley and Mary J. Quigley, who buy for purposes of investment.

Also the sale of the two-apartment house situated at 28 and 30 Canal street, directly at the corner of Grove street. The apartments have six rooms and bath each, and the land conveyed totals 5008 square feet. The sale is negotiated on be-

RADIO FANS LOOKING FOR CLUB HOUSE

The members of the Lowell Radio club are planning on building a new club house on the corner of Middlesex and Gorham streets. The new building will be a two-story structure, with a large hall for the club members to use. The building will also have a kitchen and a bathroom. The club members are planning to have a meeting on September 17th to discuss the plans for the new building.

H. P. HOOD & SONS

Lowell will have a product safeguarded by every known means. This company is also introducing the new Cream Top milk bottle, which will enable the housewife to separate the cream from the bottom milk by means of a small handle which will be distributed with the initial order. This is an advance in the dairy industry, as they are providing a convenient way for the housewife to separate the cream from the bottom milk. The new bottle will also have a small handle which will be distributed with the initial order.

**Ill and cross last night—
DR. CALDWELL'S
SYRUP PEPSIN
brought vigor by morning**

How To Keep A Child Healthy

A GENERATION ago parents thought that sickness was a part of a child's life, but we know better now. The secret is in the food the mother allows the child to eat, and in watching that elimination occurs regularly two or three times a day. Mrs. J. Russell of 19,141 Havana Ave., Detroit, Mich., keeps her family of two young children in perfect health with Dr. Caldwell's Syrup Pepsin, and Mrs. R. L. Smith of 519 Maple Ave., East Pittsburg, Pa., says her family of three children have never been sick a day since giving them Syrup Pepsin.

A Substitute for Physies

Dr. Caldwell's Syrup Pepsin is a scientific compound of Egyptian soda with pepsin and suitable aromatics. The formula is on every package. You will find you do not have to force children to take it, and it is much better for them than castor oil, calomel or coal-tar drugs like phenolphthalein even if covered with sugar or chocolate. Syrup Pepsin is mild and gentle in action and your child will love it.

You Can Have A Trial Bottle

"Syrup Pepsin," 517 Washington St., Monticello, Illinois.

I need a good laxative and would like to prove what you say about Dr. Caldwell's Syrup Pepsin by actual test. Send me a free trial bottle. Address to:

REAL ESTATE TRANSFERS

Thomas H. Elliott reports the following sales in a sum total of \$40,000 negotiated during the past week:

On behalf of William Livingston, formerly of Lowell and at the present time of Chelmsford and St. Petersburg, Fla., conveyance has been effected of a suburban residential property situated on High street, Chelmsford Centre. The house is of full 2½-story type, and is surrounded by most attractive grounds. The land involved totals five acres. There is an excellent garage on the premises. The grantees are John O. Pearson and George M. Pearson of Lowell. Mr. and Mrs. Pearson are already in occupancy of the premises.

Final papers have been sent to record through this office in the transfer of a residential property at 1531 Middlesex street, directly at the head of Wolcott street. The house has eight rooms and is modern to the last detail. The land involved approximately 3400 square feet. The sale is effected on behalf of the grantor, William H. Ball, the purchaser being Frank O. Quigley and Mary J. Quigley, who buy for purposes of investment.

Also the sale of the two-apartment house situated at 28 and 30 Canal street, directly at the corner of Grove street. The apartments have six rooms and bath each, and the land conveyed totals 5008 square feet. The sale is negotiated on be-

GIRLS! LEMONS BLEACH TAN AND FRECKLES

Make This Lemon Cream and Just See Tan, Freckles Disappear

Mix the juice of two lemons with three ounces of Orchard White, which any druggist will supply for you. Shake well in a bottle and you have a whole quart of pure and wonderful freckle and tan cream and complexion beautifier.

Massage this sweetly fragrant cream into the face, neck, arms and hands each day and see how tan and freckles naturally bleed out and how smooth, clear, glowing and rosy-white the skin becomes.

DE FOREST PICKS DEMPSEY TO WIN WITHIN TWO ROUNDS

FORMER TRAINER OF BOTH DEMPSEY AND FIRPO MAKES PREDICTION

De Forest Saw Titleholder Work Out at Training Camp—Says Dempsey Not the Fighter He Was When He Defeated Willard, But Despite That, Still Good Enough to Conquer "Wild Bull of the Pampas"

SARATOGA SPRINGS, N. Y., Sept. 10. (By the Associated Press.)—With his mouth with Loup Auro, Firpo just five days away, Jack Dempsey, world's heavyweight titleholder, today declared he was ready to do his best.

The trained champion, with a two months' stay in the ring, said he had worked as hard as he ever had in his career, and was confident of his ability to win the championship fight.

De Forest, who has trained both Dempsey and Willard, said he was confident of Dempsey's ability to win the fight. He said that Dempsey was not the fighter he was when he defeated Willard, but that he was still good enough to conquer "Wild Bull of the Pampas."

LOWELL MEN IN BIG SWIM

"Mike" Rynne Finishes Second in Boston Light Swim—Murphy Third

Keefe Followed Close Behind—Paterson Takes First Honors

BOSTON, Sept. 10.—A bitter east wind that whipped the water into a frenzy of whitecaps, proved to be a severe test for the swimmers who took part in the Boston Light swim today. The swim, which was held in the harbor, was won by Paterson, who finished in 10 minutes and 10 seconds. Rynne finished second in 11 minutes and 10 seconds, and Murphy finished third in 12 minutes and 10 seconds.

MICHAEL RYNE

any of the water had been about 10 feet deep.

At the end of the swim, the swimmers were met by a crowd of spectators on the shore. The swim was a success, and the swimmers were well received.

Swimmers in Bad Shape

Because of the conditions of the water, the swimmers were in bad shape when they finished the swim. Many of them were exhausted and had to be helped out of the water.

Eighteen Start Swim

Eighteen swimmers started the swim today. They were: Paterson, Rynne, Murphy, Keefe, and others. The swim was a success, and the swimmers were well received.

Swimmers in Bad Shape

Because of the conditions of the water, the swimmers were in bad shape when they finished the swim. Many of them were exhausted and had to be helped out of the water.

LOWELL WINS AGAIN IN INTER-CITY SERIES

The second game of the inter-city series between Lowell and Lawrence, played at O'Sullivan park in the afternoon, resulted in a 4-2 victory for Lowell.

The game proceeded along smoothly until the eighth when Lawrence threatened seriously and sent four runners over the plate before Purvey recovered from his temporary lapse. A double by Bradbury, singles by Sweet and Kennedy, a passed ball and an error by Lawrence added one for good to Lowell's lead. Lawrence's pitcher, Spaulding, was hit by a line drive from Bradbury, and the game was over.

TOTH SWIMS THE CHANNEL

Boston Man Completes Task in 16 Hours, 40 Minutes, Close to Record

Wins Glory But No Money—Sullivan on Hand to Greet Him

DOVER, Eng., Sept. 10. (By the Associated Press.)—Charles Toth of Boston, Mass., yesterday swam the English channel, starting Saturday night from the French side, the American landed near St. Margaret's bay. He had been in the water 16 hours and 40 minutes.

CHARLES TOTH

Unquestionably the lively ball has been the greatest factor in the era of slugging that is now baseball's chief feature. Incidentally the fact that umpires have been in the habit of throwing a ball out of play on the slightest provocation has played a prominent part. With the pitcher compelled to deliver a new ball practically all the time, and the batsman realizing the advantage this gives him, slugging has become the outstanding feature of baseball.

When Toth turned up in Dover yesterday in time for lunch, it was the first meal he had had since dining in France Saturday evening. He made the greater part of his swim during the night and was the third American to conquer the channel this summer. The other two men were Henry Sullivan of Lowell, Mass., and Enrique Tirabocchi, an Argentinian.

This method of travel between France and England will never be popular one, according to Toth, who declared yesterday when he landed on the beach near here, that it wasn't an enjoyable way to spend the weekend. He added that he was feeling pretty well tired out.

When Sullivan swam the channel only last month, and when Tirabocchi repeated the performance the following week, there was a man on the beach waiting to hand him a cheque for 100 pounds. Toth, however, did not get anything out of it but glory, unless some unexpected benefactor comes forward.

It was 4:45 p.m. Saturday evening when Toth plunged into the channel at Cape Gris-Nez, France, and it was about 11:30 o'clock yesterday morning when he reached the shore of England. He took only a few minutes more than was required by Tirabocchi in his record making swim across the choppy sea. Like Tirabocchi, Toth was lucky. He touched the bottom at the extreme end of the little point of land separating St. Margaret's bay from King's Down. Had he missed this point by even a few yards he would have had to keep going with his steady tread stroke several miles farther along the coast to find a spot to land. As it was he had only a strip of sand a yard wide to stand on. Back of him was water and in front was a high cliff.

Buzzard acted as Toth's pilot and adviser throughout the swim, and joined the American in the water during the last two miles. To the advice of the English veteran, Toth attributed no small part of his success.

Sullivan was one of the first persons to greet his compatriot after Toth had recovered his health in the cozy room of the tug which had accompanied him across the channel. Buzzard and Sullivan took Toth on board the tug and carried several pounds of food on his body which had been rubbed on him before he started to ward off the cold.

On landing Buzzard and Sullivan took Toth to a place where he could get a bath and something to eat. He said he was rather badly in need of both. When his appetite had been satisfied, the Bostonian strolled out on the street and walked home. He was unaccompanied, unharmed and untroubled. But, shortly after words he was recognized by persons who cheered him. This attracted a crowd of men, women and children from the byways and highways and the times, and in a few minutes Toth was being mobbed as much as here as any of the other men who have crossed the channel this year.

CINCINNATI REDS MAKE SLIGHT GAIN ON NEW YORK GIANTS

Runners-up Win Over Pittsburgh, While Brooklyn Hands Beating to World's Champions—Yankees Win Double-Header From Red Sox—Ruth Cracks Out 34th Home Run

NEW YORK, Sept. 10.—The Cincinnati Reds pushed the Pittsburgh Pirates back into third place in the National league yesterday, by trouncing them 8 to 3. The hit score was even, 12 all, but superb fielding on the part of the Cincinnati players kept down the Pirate runs.

The Yankees took two easy games from Boston, 5 to 4 and 4 to 0. Babe Ruth cracked out home run number 34, while Witt directed twice and Scott once. Both games were won without effort. The Red Sox made six hits off Bush in the first and only three off Shawkey in the second.

The Giants went down to defeat before the Brooklyn Robins 6 to 3 in an uneventful game in which Four-ner and Kelly pounded out homers, 4 to 0. Dyer allowed eight hits to Brooklyn, but kept them from scoring. There was no one out great fault.

Billy Evans says

Romeo Roache, the French-American featherweight, who will make his initial appearance in Lowell on next Thursday night when he stacks up against Newport Johnny Brown in the main event of the Moody club card, will come to town with a formidable record.

Roache is of the fighting type, much like Brown, and hence fans look for a hurricane battle.

A glance at Roache's record is enough to satisfy the most critical fan. Nicky Travers, has twice been forced to take second money after losing ten round battles with Roache. One of his greatest battles was that in which he wrestled the award from Red "Champion" who is considered the junior featherweight champion of the world. Irish Jim Dwyer, Kid Kaplan, Newman Regar, Dutch Brandt and others have all lost to Roache.

Chick Hayes, who handled Brown, has had him working out at his "gym" in Boston, where he has reached top form. Many in the Brown camp after Marty's first victory over him, as he was confident he could beat Marty. But Marty would never sign up for a second fight with Roache, who has solved. Now Chick Suga has won his title from Marty. The winner of this fight Thursday night will go right after the new holder for a chance to land the N. E. championship.

The semi-final is attracting a lot of attention. This bout brings together Johnny Brown and the kid who has been of Nashua. Cullen has won every one of his professional fights by a knockout and is the flyweight champ of New Hampshire.

Is it more difficult to hit a stationary golf ball than a baseball whizzed through the air with terrific speed? The little golf ball as it sits patiently on its tee is often a very elusive critter when one first starts the game. However, George Sigler is convinced that it is much easier to hit a golf ball than a baseball. During the summer Sigler, who has been unable to play baseball because of eye trouble, has indulged in a lot of golf. He plays an excellent game and is a long driver. Recently, in talking with him he remarked, "I certainly can't hit the old golf ball, but somehow I can't take so kindly to baseball."

Sigler, by the way, has given up any idea of playing this year. At the opening of the season, he was certain he would get into action during the last two months of the year. Now he has decided to forsake baseball for the year and hopes that his eyes will be so improved during the winter that he will be back in action next spring. Sigler, a popular favorite in baseball, has been greatly missed, and fondly everywhere is pulling for his complete recovery.

Kinks o' the Links

by PRO

When the batsman received a base on balls with the score a tie, and the batter filled in the last half of the inning, the game was officially over. The base on balls entitled the runner on third to score, besides it entitled the batsman to go to first, the runner on first to advance to second, and the runner on second to move over to third.

The failure of the runners to touch second and third did not make themselves liable to be put out. While it was a bit of carelessness on their part in failing to do so, yet the umpire should have paid no attention to the claim of an out at each base. The home team won the game, 1 to 0.

When a player receives his ball out of the pitcher's hand, his next move should be to get into a position to hit the ball. A player who is not in a position to hit the ball is not in a position to hit the ball. A player who is not in a position to hit the ball is not in a position to hit the ball.

When a player receives his ball out of the pitcher's hand, his next move should be to get into a position to hit the ball. A player who is not in a position to hit the ball is not in a position to hit the ball. A player who is not in a position to hit the ball is not in a position to hit the ball.

True Beauty

Is impossible to those who leave film on teeth

Prettier teeth form one great beauty item. And millions now enjoy them. Every day they are combating the dingy coats of film. This offers you a ten-day test of the method they employ. It is used by dainty people of some 50 nations now. And you will always use it when you once see what it does.

That cloudy film

The clouds on teeth are due to film—that viscous film you feel. Much of it clings and stays on teeth under old-way brushing. Soon that film discolors, then forms dingy coats which hide the luster of the teeth. Film also causes most tooth troubles. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. Hardly one in fifty, in the old days, escaped these film-caused troubles.

New-day methods

Dental science has now found two ways to fight that film. One acts to disintegrate the film at all stages of formation. The other removes it without harmful scouring. Those methods were proved effective by many careful tests. Then a new-type tooth paste was

created to apply them daily. The name is Pepsodent. Now that tooth paste is in world-wide use, largely by dental advice. Wherever you go you see the benefits it brings.

Natural ways

Pepsodent acts in natural, gentle ways. Its effects do not come from harsh grit. Pepsodent multiplies the alkalinity of the saliva, also its starch digestant. One is to neutralize mouth acids, the other to digest starch deposits. Those great natural tooth-protecting agents gain manifold power from each use.

Pepsodent will bring you a new conception of what clean teeth mean. Send for this 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth become whiter as the cloudy coats disappear.

Do this for your own sake and your family's sake. Cut out the coupon now.

Protect the Enamel

Pepsodent disintegrates the film, then removes it with an agent far softer than enamel. Never use a film combant which contains harsh grit.

10-Day Tube Free

THE PEPSODENT COMPANY
Dept. B, 1104 S. Wabash Ave.,
Chicago, Ill.
Mail 10-Day Tube of Pepsodent to

Only one tube to a family.

MARRIAGE INTENTIONS

The following marriage intentions have been filed at the city clerk's office since the last were published: Joseph E. Tremblay, 58 Aiken, 26, undertaker; Blanche A. Laplante, 110 Ford, 22, hostess; Joseph Denis Lapointe, 35 Ottawa, 23, laborer; Lillian M. E. Vallee, 44 Common, 28, at home; Emile J. Audot (widowed), Dracut, 45, weaver; Marie Eugenie Gervais, 25 Aiken, 14, operative; Joseph A. Brodeur, Billerica, 38, operative; Marie C. P. Guillemain, Hale street, 33, operative; Alphonse Veilleux, 223 East Merrimack, 26, painter; Dorothy Mary Howard, 21 Angio, 18, looper; William A. McGrath, 123 East Merrimack, 27, leatherworker; Mary V. Green, 72 Fulton, 20, weaver; Joseph Page, 34 Beaulieu, 26, milkman; Marie J. F. Blon, 57 Lilly avenue, 27, clerk; William Genlias, 55 Dunmer, 24, operative; Mary Esther Gleason, 1 Oak, 21, waitress; John C. Dalbey, 159 Chapel, 25, clerk; Rose M. Cox, 50 Keene, 21, at home; Frederick L. Cheney, Jr., Maine, 34, physician; Lelia R. Davis, 476 Wheeler, 27, nurse; John Levasseur, 235 Gorham, 27, loomfixer; Mary L. TO REGULATE COAL PRICES

Gov. Pinchot Suggests Operators Should Bear Brunt of Wage Increases

Federal Mediator Makes Recommendations in Letter to Pres. Coolidge

HARRISBURG, Pa., Sept. 10.—(By the Associated Press)—Governor Pinchot of Pennsylvania yesterday made public a letter to President Coolidge suggesting that, with an anthracite coal supply assured for the coming winter as a result of the agreement reached by representatives of operators and miners here Saturday night, steps be taken to safeguard the consumer against increased prices.

The agreement reached Saturday night covered the terms of a proposed new two-year contract between operators and union miners of the hard coal field, based upon the four points of the settlement plan submitted by Gov. Pinchot to the operators' policy committee and miners' union officials here last week. These points included a 10 per cent increase in wages, inauguration of the eight-hour day, recognition of the union without the "check off," and recognition of the principles of collective bargaining. The agreement also covered certain other lesser points at issue.

In submitting the settlement plan last week the governor told operators and miners' representatives the 10 per cent increase, according to figures available, would add 40 cents a ton to the cost of domestic sizes of anthracite at the mines. Of this, he said, not less than 10 cents "can be and ought to be absorbed by the operators without any increase in price."

The remaining 30 cents, the governor declared, "should not in the end be taken from the consumer," and the whole of it, he asserted, could "easily and properly be taken out of the cost of transportation and distribution."

In his letter to President Coolidge, the governor repeated his earlier statement that 10 cents should be taken up by all the operators and added that many "could absorb the whole of the 30 cent increase and still make abundant profit."

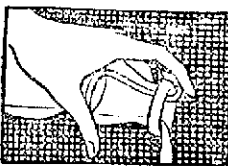

"In fairness the remainder of the 30 cents should never reach the consumer," he added.

"It is certain, however, that this amount and probably much more, will be exacted from consumers unless public action is taken to prevent it. Accordingly, since you were good enough to indicate that suggestions from me concerning anthracite would not be unwelcome, I am writing to suggest that real advantage to the public would result if the Interstate Commerce commission would take up and consider anew the rates charged for the transportation of anthracite coal, with a view to reducing them if justification for such reduction should be found."

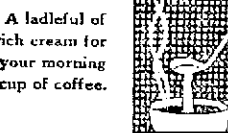

The governor also told Mr. Coolidge that mining operations are likely to be resumed before Sept. 20, an assurance based on the rapid action taken here last night after the terms of the proposed new contract were agreed upon. The union made considerable progress immediately after the conference and completed their session at 9 o'clock and approved the agreement. The committee fixed Sept. 17 as the date for a tri-district convention of members of the United States Mine Workers in the anthracite field at which the new agreement will be submitted for ratification. The meeting will be held in Scranton. If it is ratified, as union leaders expressed the belief it will be, the work suspension order which went into effect Sept. 1 will be rescinded immediately. As Sept. 18 is primarily election day in Pennsylvania, the men will not cut back into the mines before Sept. 19.

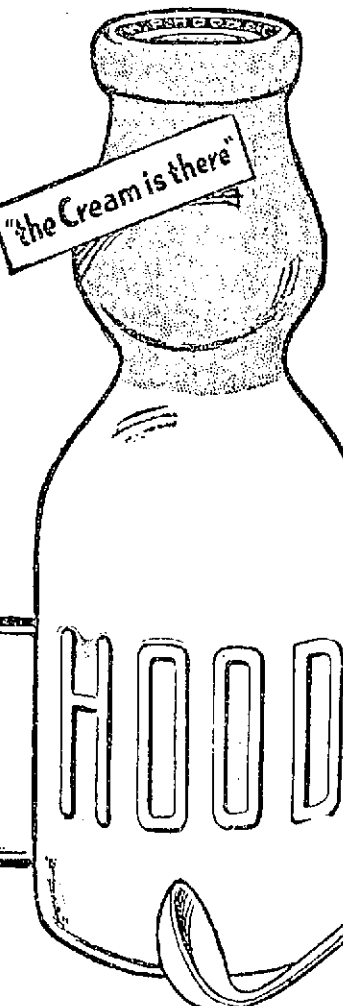

HOOD'S Perfectly Pasteurized MILK has come to town!

Pouring off entire cream content by inserting special ladle and tipping bottle.

"The distinctive bottle with the cream-top"

For over three-quarters of a century, the name "Hood" in connection with milk has been a guide to particular people—and their assurance that it is a pure, rich milk that goes beyond the standards of the law.

The entire supply of Hood's Milk is under the watchful eye of laboratory experts. Every quart is perfectly pasteurized at 142.5 degrees Fahrenheit for thirty minutes—then instantly cooled to 40 degrees. This is done to make the milk supremely safe for your children and yourself.

Moreover, the latest addition to our service is the distinctive bottle with the cream-top. The cream, rising to the top of the bottle, fills the "cream-jar," so that by using the special cream ladle which is given free to every user of Hood's Milk, the housewife can remove a ladleful for a cup of coffee or the entire cream content.

Countless thousands of homes throughout New England enjoy Hood's Milk every day. You, too, can now have this better milk—superior to every requirement of the law—and at no higher cost.

Phone or write—telling us when you want Hood's unflinching service to begin.

Skin troubles are a burden to youth

Young people are often the victims of unsightly, embarrassing skin troubles which prevent the full enjoyment of youth. To such sufferers Resinol Soap and Ointment bring relief and comfort.

Resinol Soap thoroughly, but gently cleanses the skin to the depths of each tiny pore, and prepares it for the Resinol Ointment

which soothes and heals the irritated, inflamed spots. Thousands of satisfied users of the Resinol treatment testify that it has changed a muddy, blotchy complexion to one that is clear, smooth and glowing with health.

Skins once restored to health can usually be kept in that condition by the regular use of Resinol Soap.

"The great satisfier and skin beautifier"

23 SAILORS DEAD, AND 15 INJURED

Seven U. S. Destroyers Held
Fast Between Rocks Off
Point Arguello Light

Ships Fast Approaching Total
Wrecks by Incessant
Pounding of Surf

SANTA BARBARA, Cal., Sept. 10.—(By the Associated Press.) Twenty-three sailors dead and 15 injured, seven destroyers held fast between rocks off Point Arguello light, in the Pacific ocean near San Francisco and Los Angeles.

These are outstanding consequences of the great and marine disaster in Pacific waters. The injured are being nursed at hospitals here. A train load of survivors is headed for San Diego.

The warships were approaching the point Saturday night, shortly after a black in a dense fog. Mistaken position in relation to the coast line, is believed to have caused the crash. The destroyers were speeding through the fog, heading the shore in single file formation, when they piled up on the rocks from 100 to 200 yards apart about ten miles off shore.

The fatalities were divided between two destroyers, seven from the Delphy and the others died on the destroyer Young, which turned over and sank in one minute and 27 seconds after she struck.

The other destroyers, the S. P. Lee, Nicholas, Fuller, Thresher and Woodbury, went around in position which gave their officers and crews a better chance for their lives than was afforded the crews on the other craft.

The naval works done while the destroyers rode, a member of the squadron, had left the cruising line, attracted by open beach lands of survivors from the wrecked steamship Cuba, a passenger vessel.

The Cuba went ashore off San Miguel Island, off Santa Barbara county, 12 hours before and its survivors were picked up by the Reno, with the exception of one boatload, which was picked up by the Standard Oil tanker W. H. Miller, in the Santa Barbara channel, while the occupants were rowing out to sea in a dense fog, under the impression they were headed for shore.

With a heavy sea running, the tug Partridge and Sonoma are standing by the smashed and twisted wreckage of the seven United States naval destroyers.

Two destroyers of the fleet, which were not wrecked, have left for San Diego with part of the crews of the stranded craft, while others have been sent away by train. A canal of ten picked men has been left at the scene of the wrecks. Two more tug boats are expected to arrive at the scene today. Until the high surf has subsided, it will be impossible to salvage any material from the seven destroyers.

Report From Admiral Robison
WASHINGTON, Sept. 10.—A message received at the navy department early today from Admiral Robison, commanding the Pacific fleet, said no movable material could be salvaged from the seven destroyers stranded on the California coast.

Tidal Wave Responsible
WASHINGTON, Sept. 10.—The theory was expressed by high naval officials that a tidal wave or other seismic disturbance, resulting from the Japanese earthquake, caused the disaster to destroyers division No. 11 off the California coast yesterday.

Reports from naval officials on the scene have not yet given complete information of the conditions under which seven destroyers were thrown on the rocks, but from other data, officials said it was evident that a very unusual sea disturbance took place Saturday and Sunday.

"Until the department has complete information," said Secretary Donahoe, "we must withhold any formal judgment. We can only express regret for the accident and deep gratitude for the loss of life was so comparatively light."

An investigation already is under way and a naval regulations.

LOWELL DISTRICT COURT

Many Homes Wrecked by
Moonshine—Fines Imposed
in Liquor Case

Erring husbands who imbibed too freely over the week-end and then fell back upon such things as automobiles and axes with which to impress their superiority over their respective wives, did not fare very well before Associate Justice Pickman in district court today. One of them, however, did not rely upon manufactured tools to leave his mark, but instead took a Welsh bite on the shoulder of his 15-year-old daughter. The girl bared her shoulder and displayed the marks of the teeth of her father, John Bourke, who was charged with drunkenness. His wife testified against him, saying she was obliged to call in the police yesterday to restore peace and quiet in their home. Mrs. Bourke also said that her husband was sometimes free with his fists upon her.

Bourke denied the stories and said that he was the victim of an assault by his wife yesterday. But the court was not inclined to believe his story and he was ordered committed to the house of correction for a term of three months.

Adam Jackson was sent up for one month for drunkenness after his wife had testified that he tried to hit her with a flat-iron yesterday, forcing her to run out of the house for safety. She said he had been drinking hard of late.

Mrs. John Tracz testified that her husband had not worked for some time and made only a bluff at looking for work and was drunk instead. She said that she had been supporting him for some time past. Tracz said he had a job to go to and the court decided to give him another chance. A two months suspended sentence was imposed.

Joseph Peters was also confronted with his wife when his case of drunkenness was called. Mrs. Peters said that he threatened to kill her last night and that he had previously assaulted her. There is a non-support case pending against the defendant and the court continued the case until Friday.

John Watson of North Chelmsford was also charged with drunkenness and Officer Fred Vinet said that Mrs. Watson had complained that her husband threatened her with an axe. Watson blamed the trouble at his home yesterday upon some out-of-town friends who brought moonshine to the house. He made a solemn promise to do better and he was given a suspended sentence of two months.

James McLeer was charged with drunkenness and his case was continued for ten days to allow him time to make restitution for damages caused by smashing his hand through a street car window. His hand was badly injured as a result of this and he was removed to St. John's hospital and later taken to the police station.

Mary Belanger and John F. Codman were each sentenced to three months in the house of correction after being convicted of charges of lewd and lascivious cohabitation. They were released and were each held in bonds of \$300.

Auto Law Violations
Joseph Allen was fined \$10 on a charge of operating an auto while under the influence of liquor, and a drunkness complaint. The officers testified that he was driving in a dazed manner on Merrimack street yesterday that he refused to stop when ordered and that he smelled strongly of liquor. The attention of the officers was attracted to him when he drove his car into a red light on a pile of parings near East Merrimack street.

Philip Brecchow was fined \$10 on a charge of operating an auto while under the influence of liquor and a drunkness complaint was filed. The defendant drove his car into a Yellow Taxi yesterday and the court was informed that he had already paid \$10 to cover the damages he caused to the taxi.

Joseph Ouellette of Methuen was charged with operating an auto while under the influence of liquor and a fine of \$20 was imposed. District officers testified that he was driving alone in a dazed manner and that he smelled of liquor. A pin bottle of liquor was found on him. The defendant admitted.

The defendant admitted.

Greek Ship Reaches Corfu

Continued
governor, told the correspondent that arrangements were being made at the request of the Near East relief to transfer 1500 Anatolian refugees to Greece.

Large quantities of stores for the forces of occupation continue to pour into the island. Apart from this activity the town remains calm.

Greece Yields

ATHENS, Sept. 10.—(By Associated Press.)—Greece has yielded to the demand of the council of ambassadors, announcing her readiness to conform with the decision of the ambassadors with regard to Italy's demands in connection with the killing of the Italian members of the Greco-Albanian boundary commission.

A semi-official statement issued yesterday denies that there have been any anti-Italian disorders at Patras or any demonstration against the Italian consulate. It also denies that there is any truth in the report that Greece has issued an ultimatum to Albania.

At a meeting of the Albanian chamber of commerce yesterday, a resolution was passed saying that in view of the recommendation of the League of Nations that both Greece and Italy should abstain from provocative acts, the resolution of the chamber in favor of a boycott on Italian merchandise would be rescinded.

To Consider Greek Reply

PARIS, Sept. 10.—(By the Associated Press.) A meeting of the inter-allied council of ambassadors was called for 1 o'clock this afternoon, for consideration of the Greek reply to the terms laid down by the council for settlement of the Greco-Italian dispute. Final arrangements will be made also for the work of the investigating commission.

A telegram from Viscount Ishill, president of the League of Nations council, acknowledging the receipt of the terms of the ambassadors' decision, will likewise be placed before the council. Viscount Ishill in this communication expresses the desire of the council to be kept informed of the progress of the ambassadors' action.

having drunk liquor, but did not think he was under its influence.

Antoine Goulet was fined \$35 for operating an auto while under the influence of liquor, and \$10 each on complaints of operating without a license and without registration. He pleaded guilty to the complaints.

Liquor Dealers Fined
Peter Blazende pleaded guilty to a charge of illegal keeping of liquor and a fine of \$100 was imposed. On a similar complaint Ed Croteau was also fined \$100.

Leander Desjardin pleaded guilty to an illegal sale of liquor in Draught and he was fined \$100.

Joseph Wrenik pleaded not guilty to a charge of illegal keeping of liquor, and also to complaints of operating an unregistered automobile without a license, and the cases were continued to Sept. 22.

The continued case of John Simoa, charged with an illegal sale of liquor, was further continued until Saturday. William O'Loughlin pleaded not guilty to a charge of assault upon an officer and a continuance was granted until Sept. 15.

Fred Desjard pleaded not guilty to a charge of illegal keeping of liquor and the case was continued 10 days.

Drunkenness complaints against Stanislaus Kepollinski, Manuel V. Silva, Albert E. Vasser, were filed.

SUN BREVITIES

Mrs. Angelina Blanchard has returned to her home, St. Germain, Canada, after spending the summer with relatives in this city.

Mrs. William Mahan and the Misses Ethel and Loretta Long have returned after a pleasant vacation at Hampton beach.

City Auditor Daniel Martin will attend the quarterly meeting of the New England Association of Auditors, which will be held at Worcester next Wednesday.

City Solicitor and Mrs. P. J. Reynolds are rejoicing over the birth of a daughter, which occurred last Saturday evening. The little miss is the granddaughter of Mayor John J. Donovan.

MATRIMONIAL

Gay—Hayes
Mr. Herman Gay of this city and Miss Caroline E. Hayes of North Billerica were married yesterday afternoon at St. Andrew's rectory, North Billerica, by Rev. Charles J. Sullivan, D.D., Miss Alice Hayes, a sister of the bride, was bridesmaid, while the best man was Mr. Frank Lowmyer of this city. At the close of the ceremony a reception was held at the home of the bride's mother, Boston road, and later the happy couple left on an extended honeymoon trip.

Burns—Sullivan
Mr. Francis Williams Burns, prominent brother salesman of Boston, and Miss Grace Dorothy Sullivan, well known local graduate nurse, who for the past several years has been in charge of the operating room of the Boston City Hospital, Dorchester, were united in marriage at St. Margaret's rectory yesterday afternoon at 4:30 o'clock by Rev. Charles J. Gallivan, pastor.

The bride was attended by Miss Genevieve Burns of Dorchester, sister of the bridegroom, while Mr. John J. Morris, also of Dorchester, acted as best man. The bride looked charming in a gown of caramel colored tulle, back crepe with picture hat to match. She carried a shower bouquet of pink roses. The bridesmaid was becomely attired in blue satin-back crepe, with a picture hat to match. She carried tulipella roses.

The bridegroom's gift to his bride was a platinum bracelet. His gift to the best man was a white gold signet ring. The bride's gift to her bridesmaid was an amethyst ring.

Following the ceremony the bridal party repaired to the home of the bride's sister, Mrs. William H. Sullivan, 12 Forrest street, where a reception was held and dinner served to immediate relatives of the contracting parties by Lydon, the caterer.

The happy couple were the recipients of many beautiful and useful gifts.

OLD BELVIDERE CLUB BOSTON MAN QUAKE HERO

Reunion of Well Known
Organization Yesterday at
Salisbury Beach

The old Belvidere club which flourished and promoted sociability and good fellowship back in the halcyon days of 1909 and thereabouts, but which ceased to function actively along about 1908 when several of its members forsook the ways of single blessedness, held its first reunion in 15 years yesterday at Salisbury, the old stamping ground of the organization for two weeks every summer back in the misty days of yesteryear. Of the "old gang" still young in spirit despite the advancing years, which must exact a toll, eleven motored to the beach yesterday and pulled up in front of the Newcomb House, the same hostelry which housed them in years gone by, although altered and changed somewhat and modernized since several disastrous fires.

At yesterday's reunion were William J. Flanagan, James R. Casey, Charles P. Smith, James E. Burns, Francis A. Burns, Michael H. Finnegan, Eugene Guenard, Thomas E. Leonard, Thomas F. O'Neil, Patrick J. Mooney and Walter King. Four other members who were unable to be present were Stephen Flynn, William J. McLaughlin, Hugh P. Farley and John B. Boulter.

Many of the old time sports were visited at the beach, but the general complexion of this now popular summer resort has changed so in recent years that scarcely any of the well known landmarks of 20 years ago exist.

Yesterday's reunion was such a success that it was decided to hold a reunion for families of members at Charlie Smith's camp on the Concord river on Sept. 23.

It is probable that reunions will follow annually, at least that was the feeling expressed yesterday, for the old comradeship still exists and no member wants to see its flame die out.

LOWELL AD CLUB

Miss Irene Matthews, secretary of the Lowell Ad Club, accompanied by Miss Alice Joyce, a past secretary, attended the meeting of Contact Men and Women of the Ad Clubs held in Portland, Me., Saturday.

Plans were laid for the forthcoming convention of the associated ad clubs of New England who will visit the Maine metropolis for three days commencing Sept. 23.

Bravery of Capt. Swain, Who
Despite Two Broken Legs,
Directed Rescue Work

Gave Instructions for Saving
Guests and Cheered the
Injured

LONDON, Sept. 10.—The bravery of a Captain Swain of Boston, believed to be in the service of the Canadian Pacific, who despite two broken legs, directed rescue work at the ill-fated hotel, Yokohama, is related in a Shanghai dispatch to the Daily Telegraph, quoting Mrs. H. K. Dimelow of Keokuk, Ia.

Not only did he give instructions for saving the guests, but he cheered the injured, and by his courage many were saved who otherwise would have perished.

Miss Katherine Elder, a sister of Mrs. Dimelow, was in a Yokohama street car when the first earth shocks occurred. The street car was derailed but she, with her sister's baby, miraculously escaped. As the car burst into flames, she jumped into a canal, avoiding the showers of red hot cinders and ashes that filled the air as the buildings in the vicinity toppled.

Miss Elder stayed in the water until 1 o'clock in the evening.

ROLLER SKATING SEASON REOPENED

The local roller skating season will be reopened at the Crescent rink in Grand street this evening, to be continued through the fall and winter months.

A new supply of the latest skates, both wooden and three rollers has been secured. Also several new musical features, including all the latest and popular hits of the season.

For the present season will be held every evening, except Thursday. On Saturday sessions will be held afternoon and evening.
